

# Mr. Malay Gandhi

## Chief Executive Officer (CEO) – MRise Group

*Supporting enterprises and investors in establishing and scaling operations in Gujarat*

Mr. Malay Gandhi is the Chief Executive Officer (CEO) of MRise Group, a diversified group of companies, and a senior enterprise leader known for supporting organizations and investors in establishing, expanding, and scaling operations in **Gujarat**. His leadership is defined by a strong understanding of business operations, institutional systems, and regional industrial ecosystems, built through progressive responsibility across multiple industries and organizations.

## Professional Journey & Leadership Evolution

Mr. Gandhi's career reflects a ground-up leadership journey across consulting, technology, logistics, and manufacturing—providing him with deep operational insight and strategic perspective.

He began his professional career as an **Associate Consultant**, earning promotion to **Consultant within an IT company**, where he worked on enterprise systems, digital processes, and business optimization initiatives. He subsequently served as an **IT Administrator** supporting **logistics and manufacturing environments**, gaining first-hand exposure to supply-chain systems, industrial operations, and mission-critical infrastructure.

Building on this foundation, Mr. Gandhi transitioned into core industrial leadership as **Deputy Manager in a manufacturing organization**, contributing to operational planning, process improvement, and cross-functional execution. He later returned to a strategic advisory role as a **Consultant in an IT company**, further strengthening his expertise in digital transformation and business–technology alignment.

His leadership trajectory continued within manufacturing as **Assistant Manager**, followed by promotion to **Head of Department (HoD)**. His ability to lead teams, improve efficiencies, and execute at scale ultimately led to his role as **HoD and India Head for a manufacturing company**, where he oversaw national-level operations, senior leadership teams, and large-scale execution across regions.

This steady progression—from consulting and IT systems to industrial leadership and national responsibility—has shaped Mr. Gandhi into a CEO with an end-to-end understanding of organizations: people, processes, technology, governance, and growth.

## **Current Role – Chief Executive Officer, MRise Group**

As CEO of MRise Group, Mr. Gandhi provides strategic direction and executive oversight across a diversified portfolio spanning **manufacturing, technology, logistics, and allied sectors**. He is responsible for defining long-term vision, driving sustainable growth, strengthening governance frameworks, and building institutions that are operationally strong and scalable.

In addition to leading group businesses, he actively supports enterprises and investors seeking to enter or expand within Gujarat by helping them navigate operational readiness, ecosystem alignment, and long-term growth planning. His role is facilitative and strategic focused on enabling businesses to establish strong foundations and scale responsibly within the region.

## **Sectoral Enablement & Investment Support**

Beyond group leadership, Mr. Gandhi supports investment and growth initiatives across a wide spectrum of industries, including aerospace, defence and security; banking, capital markets and asset management; automotive; infrastructure and capital projects; industrial manufacturing; semiconductors; technology and telecommunications; logistics and transportation; pharmaceuticals and life sciences; energy and utilities; real estate; education and skills; hospitality, leisure, entertainment and media; and allied sectors.

Across these industries, he works with organizations to support responsible investment, ease market entry, encourage ecosystem collaboration, and promote scalable, employment-generating growth aligned with regional capabilities.

## **Vision – Enabling Sustainable Industry Growth in Gujarat**

Mr. Malay Gandhi's vision extends beyond enterprise leadership to long-term regional and industrial development. reminding committed to strengthening Gujarat's position as a preferred destination for domestic and global investors by supporting industries that are innovation-driven, operationally strong, and future-ready.

He believes sustainable growth comes from building resilient institutions, encouraging ethical business practices, and enabling industries to move the global value chain from cost-driven models to quality, innovation, and ESG-aligned growth. Through collaboration, strategic guidance, and ecosystem enablement, his objective is to create a multiplier effect—where business expansion contributes to employment, regional competitiveness, and long-term economic resilience.
