

Watercraft Rack Rental Agreement & Application – 2023 Friends of Chester Woods (FOCW) Chester Woods Park

The ***Friends of Chester Woods*** and Chester Woods Park (hereafter “the Park”) provides for its friends and participants a storage rack rental program for their small, motorless watercraft (canoes, kayaks, paddle boards). Renters may store personal watercraft at the Park for the boating season, **from April 1st to November 1st**.

Storage racks are made available on a first-come, first-served basis, pending approval of a completed application and payment of the seasonal rent. Storage is limited to personal, small watercraft such as canoes, kayaks and paddle boards that measure no more than the following limits: length = 20 feet; width = 3 feet; depth = 20 inches. The application is at the end of this document on pages 3 & 4.

Please read this agreement document thoroughly prior to filling out the application information required, and sign and date the application. Your signature indicates that you have read, understand and will abide by the rules (below) of this program.

Rack Services: Watercraft storage racks have been installed near the Bear Creek Reservoir in the Park. Though the rack stanchions are situated away from the shoreline, the racks may be flooded due to a severe storm event. No boat damage is expected, however, neither FOCW nor the Park accepts any liability for storm damage to watercraft – on the racks, or in use – from flood or any other storm. Owners should have insurance (homeowner’s or other) to cover any losses due to all causes, including storm, vandalism, fire and theft – on or off Park property.

Watercraft stored on the racks are available to owners at any time the Park is open to the public. Current hours are from 5:00 AM to 10:00 PM. Please check with the Park for current seasonal gate hours. Plan your boating excursions accordingly.

Rental Agreements are valid for one season only and may not be extended. Owners must apply for racks each season, including a new, current application, properly filled out.

Season: Storage racks are available from **April 1 to November 1, 2023**. Rent for the 2023 season is \$100.00, paid in full, in advance. A second rack may be rented at the same rate. Rack G is only for canoes or extra-long kayaks. Rack H is only for kayaks and does not accommodate 2 kayaks on the same rack.

Assignment of spaces: On the first workday of January, FOCW will open in random order all applications that have been received. FOCW will attempt to honor rack location preferences, if desired, but will not guarantee specific rack assignments. Two owners may exchange rack spaces if both agree, and if FOCW agrees to the exchange. All watercraft over 10 feet **must** be registered with the state. One owner may rent up to two racks but must be the owner of all watercrafts stored.

Rules:

- For purposes of this agreement, watercraft acceptable for storage on FOCW racks includes canoes, kayaks, and paddle boards. Maximum acceptable dimensions of watercraft are 20' long, 36" wide, and 20" deep. "watercraft" refers to any watercraft legally stored on the FOCW racks.
- No motors may be stored in conjunction with this rental storage program.
- FOCW will assign rack space to accepted applicants.
- Renter may store watercraft only on assigned rack space(s), no paddles, masts, personal flotation devices, or related watercraft equipment are permitted.
- Renter must own the watercraft, and the watercraft must have current state registration as required. Any watercraft 10 feet long or less does not require a state registration.
- Renter must be at least 18 years old.
- Renter must provide their own chain/cable and locks (1 minimum for each watercraft), and neither FOCW nor Chester Woods Park will have access to lock or watercraft.
- Renter must maintain and care for watercraft. Neither FOCW nor the Park accepts any liability or responsibility for watercraft.
- Renter must fill out, date, sign and submit the application with full payment included. The renter may request a preferred rack(s), but FOCW may not be able to accommodate the request. Any applications dated prior to January 1 will go into a random drawing for priority of assigning racks. Once accepted and the rack is assigned, the Renter will be notified by mail of their seasonal assigned rack.

All watercraft must be removed from racks by November 1st: Watercraft not removed by end of season may be removed by Park staff and stored at the Park facility, as needed. The owner will pay \$30 handling fee to remove the watercraft plus \$5/day storage for any unit not removed by Nov 1st.

Vacated Racks: If racks are vacated by the owner, in writing, FOCW may re-rent vacated racks. An empty rented rack can be deemed vacated if it is unused for one month (30 consecutive days). FOCW and/or The Park will make reasonable attempts to contact owners of vacant racks to understand the conditions at that time. Owners are advised to notify FOCW/the Park if the watercraft will be used while on vacation or other temporary relocations and will not be returned for more than a month. FOCW/The Park will honor such notices.

Securing watercraft: Watercraft stored on FOCW racks **must be secured at both ends and locked at least on one end but strongly suggested on both ends.** Failure to secure a watercraft properly could be the cause of damage to other watercraft on that rack; and the owner will bear all liability for damage caused by owner's watercraft. Park staff will check the storage racks frequently to maintain safe and secure storage facilities; but the owner must assure the security of owner's watercraft. We recommend a heavy-duty chain and lock be used instead of a light cable system. Failure to secure watercraft after being warned by Park staff may be cause for revocation of the rental agreement and immediate removal of unsecured watercraft.

Refund: Prorated rental fees may be refunded, if requested in writing before May 1st of the current season – less \$15 administrative fees. Released racks may be re-rented immediately.
