- 4 Not breaking the nasal bones results in much less bruising and swelling and minimal downtime
- 5 No large internal nasal packings to remove after surgery for maximal comfort
- 6 Clear and open communication for understand aesthetic goals and delivering dreamy results

DREAMY NOSES

"No piggy noses, upturned doll noses, pinched, ski-slope, or 'overdone' noses here. My goal is sculpting beautiful, functional noses that fit the rest of your face similar to what you've dreamed of since you were little" -Dr. Saman

Minimal dissection allows for minimal downtime in the short term, and predictable and stable results in the long term.

Jack of only a few trades, Board certified facial plastic surgeon, Dr. Masoud Saman confines his entire practice only to rhinoplasty and aesthetic facial surgery.
