

## About the Autism Caring Center

The Autism Caring Center was founded by two mothers of autistic children that recognized the need for additional support and encouragement for families and individuals with autism. With many years of experience in autism advocacy and training the Autism Caring Center staff offers personal experience and professional skills to families in need in our community.

### The Center Provides:

- Consultations to support individuals and families in need with resources and information.
- Autism training for schools, community groups, and businesses. Recent trainings given by staff members include Covestro and the Canonsburg Volunteer Fire Department.
- Monthly support groups for parents and individuals throughout Southwestern, PA.
- Community events for individuals with ASD, their families and friends.
- Advocacy services including IEP meeting support and court testimony.

Dear Friends,

Now in its twelfth year, the Summer Fade Away Festival is a way to celebrate summer, while raising awareness and funds to support services for children and families with autism and special needs.

Chances are, you know someone who has been touched by autism. My personal connection is that my son, Nathan, was diagnosed at 18 months with autism spectrum disorder. Thanks to therapy and a lot of support, Nathan attends public school and is doing wonderfully. I launched the Fade Away Festival to help other families impacted by autism.

In 2025, the Fade Away hosted over 1700 attendees and raised over \$25,000 to support children with special needs. With your help, we hope to make this year's event - on Thursday, August 6, 2026 in Southpointe - our best yet!

We are asking you to please consider becoming one of our corporate sponsors or provide donation of a prize, gift certificate or service to be included in our raffle and auction held in conjunction with the event.

Your donation will support the Autism Caring Center's dedication to improving the quality of life for those living with ASD and the families that care for them. They provide advocacy, training, resources, and support. Partnering with local businesses, to engage the community to promote awareness, acceptance, and inclusion.
