Clarification to NRCHA 9.13

9.13 For Premier Events, herd settler must be entered in the event for which he/she is settling. (For example, to settle a herd in any division in a derby, the herd settler must be entered in that derby, in any division). No horse may be used as a herd settler for a class in which that horse is competing. They may be used as turn back horses.

9.13.1 At the Snaffle Bit Futurity no horses entered in the Futurity may be used to settle a herd for any class at the event.

9.13.2 Violation of this rule shall result in the horse becoming ineligible to compete in the herd work portion of the class. When a horse is found to be ineligible the earnings and awards will be forfeited to the NRCHA. If the infraction occurs in the preliminary round of an event with finals, the horse shall be ineligible to advance to the finals.
