### Our Strengths

- Top Management from Core Industry
- One Decade of Strong Expertise
- Outstanding Scientific Management
- Global Industrial Awareness
- Highly Trained Team
- Cross Industry Expertise
- Exceptional Service Quality
- User Friendly Operations
- Networked with 20+ Brands, and Pioneered 200 Customised Solutions
- Exclusive Manufacturing Unit for Control panels & Special Components
- Highly Competitive Costs

### Benefits of Automation through IAS

- Increase in productivity and enhanced output
- Cost savings through minimized labour costs
- Time bound output
- Energy savings through optimized power usage
- Lower breakdown periods
- Assured quality and best product selection through multiple brands
- Lowest product procurement time dealing with multi-brands
- Lowest product/component costs
- Quick service turnaround - Round the clock service
- Single partner for projects, services, deliveries, follow ups, support, warranty etc.

## MKR Industrial Automation Services

With global industry growing in leaps and bounds, automation technologies are in demand as never before considering their manifold advantages and benefits. Automation of plants, machinery and operations has revolutionized the industry the world over, and has accelerated peaks over the last two decades. As one of our regional industry's strongest player in the sector, MKR Industrial Automation Services (IAS) has demonstrated absolute prowess and has been the ideal partner for our regional industry, having been in operations since 2008.

With exceptional domain knowledge, premium skills and masterly experience in Industrial Automation, and catering to a wide range of industries across India, IAS is now contemplating global frontiers, with opportunities in the Gulf, Europe, South America, Africa and the Far East.

To create and deliver exceptional products and services in every facet of Industrial Automation, using update technologies, hardware and softwares, and partnering with the most renowned international OEMs, as a multi brand system house, while using globally endorsed best business practices.

### Our Mission

To be recognized as Indian industry's foremost multi-brand system house commanding strong global presence.

### Vision

### Our Philosophy

To offer the very best resources in the global market, dealing with a wide range of brands, with quality as the sole cornerstone, and at competitively challenging costs, while ensuring long lasting and foolproof system integrations, across industries and geographies.

### Our Expertise

**Automation:** PLCs, HMIs, SCADA, DCS, Servo systems, AC/DC drives (VFDs), CNC system, PAC, wireless technology modems and modules etc.

**Switchgear:** AC/DC Motors, Soft starters, ACBs, MCCBs, MCBs, Contactors, Relays, Digital & Analog meters, Push buttons, Indicator lamps and intelligence MCC etc.

**Control Components:** Sensors, Relay Boards, Safety Relays, safety interlocks, Limit switches, Timers, Counters, Terminals, Signal Converters, Digital/Analog Indicators etc.

**Instrumentation:** Level, Flow, Temperature and Pressure related Transmitters, Sensors, Indicators, Control Valves, Gauges, Meters and other related equipments and etc.

### Our Services

- PLC, HMI, SCADA, DCS, Servo Systems and AC/DC Drive Programming
- Commissioning and Breakdown support
- Retrofitting and up gradations.
- AMC's, Site Audits, FAT (Factory Assistant Test)
- SAT (Site Assistant Test), Onsite/Offsite Training for Clients
- Erection & Commissioning Jobs
- Exclusive Training for Engineering Institutions

### Exclusive Manufactured Products

- MCC panels, PCC panels, PDB's & DB's
- PLC, VFD and other Automation Control Panels
