ThirdDay Therapeutic Co.

Genesis 1:11

ThirdDay Therapeutic Co. was born out of a desire to eliminate as many toxic chemicals from my life as possible, including the harsh chemicals in store-bought skincare products. After graduating from the Health Coach Practitioner Program at the Institute for Integrative Nutrition and learning so much about the consequences of what we put in AND ON our bodies, I decided to commit myself to teaching others about cleaner lifestyle choices and how those choices influence your overall health. Since our skin is our largest organ, and it absorbs everything we put on it, I decided it needed to start with my skincare products! After extensive research, I came up with my product line to include all chemical-free, non-toxic ingredients that offer skincare benefits that are therapeutic to the health and happiness of your skin! My daughter has always struggled with eczema patches and skin irritation as well as hormonal breakouts, and these products have virtually taken all of her skin issues away! They are literally therapy for your skin! I am confident that you'll love them as much as I do!
