Re: GFG 401K Trust v. S.R. Griffin Construction, Inc.

Dear Fred:

As you may recall, Request No. 8 in Defendant's Request for Production of Documents to Plaintiff asks for any and all photographs or video recordings of your property or the home on the property, including but not limited to where the alleged damage took place. It has come to my attention that there is a trail camera in the area of the "Legacy Oak Tree" on GFG 401K Trust property.

Please provide any and all photographs or video recordings stored on this trail camera, or any other similar devices located on GFG 401K Trust property.

Please let me know if you have any questions about my request.

Very truly yours,

/s/ Jonathan R. Liberman
