Forest City Outdoor Towns Walkshop - Thurs. May 13, 2020

Forest City is participating in *Outdoor Towns*, an initiative that helps communities transform their economies by attracting visitors who use nearby natural resources like trails, rivers, lakes, and mountains, and also businesses that serve them. The goal is to transform the downtown area into a destination people will visit while hiking, biking, snowmobiling, fishing, or skiing to eat, drink and shop. Increased visitation also provides an opportunity to showcase the rich history of Forest City.

Following a successful Community Input Workshop, the Forest City Outdoor Towns Action Team is inviting residents, business owners and anyone interested in the future of Forest City to join them in an Outdoor Towns Walking Assessment aka “Walkshop” on Thurs. May 13, 6-8 PM. The walkshop will identify improvements needed to make Forest City a more welcoming and inviting town for visitors!

Outdoor Town Walkshop
May 13 6PM – 8PM
Forest City Historical Society, 633 Main St., Forest City

The walkshop will look at potential pedestrian and bicycle improvements, access to and from the D&H Trail, signage and marketing/promotion needs and possible improvements to downtown.

The walkshop is a fun and an interactive way to provide input for the action plan that will be created for Forest City. It will be about a 2 mile walk and will take about 2 hours.

Everyone is invited – residents and neighbors, business owners and employees, and officials.
