- Meeting called to order by Kathy.

- Introduced our guest speaker Marissa McAndrew

Talking about 501C3; we would have to rent the park from Borough. We would need to have our own lawyer, accountant, would need to carry liability insurance also officer insurance.

Attendees all voted no going any further on this.

- We questioned on what are our responsibilities as volunteers.

Marissa confirmed that we meet as a team and together bring to our park representative what we believe needs fixing or opportunities to benefit the community. We also inform of any thing needed for improvements for safety.

Any functions we do is to help with these improvements or future functions so money is kept with the borough.

We also had questions on how we are to report our notes. Marissa also confirmed that we can just take notes there is no need to do a minutes format.
