

Tiny Teeth Express Oral Health Program

Tiny Teeth Express Oral Health Program will be providing visual screenings & preventive oral health services at your child's pre-school on _____. Service choices include oral screenings, fluoride varnish, teeth cleanings, and protective dental sealants.

Dental sealants are offered to children 3 years and older. 18 months to 3 yrs. may receive cleaning or brushing of teeth & fluoride. HeadStart kiddos under 18 months will receive visual screenings only. Our screenings count as ECEAP dental health encounters for enrollment purposes as well.

These visits are quick and fun, your child will receive a free toothbrush & sticker.

Every child will receive a free visual screening unless you opt out with your child's school, please inform them if you would like to opt your child out of the screening.

Screenings are NOT the same as dental exams and do not interfere with regular dental office exams

Teeth Cleaning- removal of soft plaque and debris on all teeth surfaces

Fluoride Varnish is a safe, great tasting "cotton candy" flavored gel brushed onto the teeth by a dental professional which helps fight cavities and is recommended for young children 2-4 times per year.

Dental Sealants are a safe and painless coating placed on chewing surfaces of the back teeth. They may be effective for several years. According to the CDC (Center for Disease Control) sealants prevent cavities by up to 80%!

Please check the preventive services you would like your child to receive:

☐ **Teeth Cleaning**

☐ **Fluoride Varnish**

☐ **Dental Sealants**

[Child's First name] _____ [MI] _____ [Last name] _____

Birth Date: ____/____/____ Gender: **Male/Female**

Child's School/ Care facility _____

☐ **ProviderOne/Medicaid #** (9 digits ending in WA) **WA**

**If not known, leave blank-we can verify with name and date of birth.*

ECEAP/Headstart children are 100% covered by Medicaid for our services.
