

NL440 - EN856 4SH FOUR WIRE HYDRAULIC HOSE

NL440 is a four spiral hose used in higher pressure industrial applications. This high pressure hose meets EN856 4SH and has a standard synthetic rubber tube and cover. This hose is designed with a MSHA flame resistant cover.

Inside Diameter	Part #	Outside Diameter	W. Pressure @ 20°C (70°F)	Bend Radius	Weight (lbs/ft)	Stk	Std Cut Increments	Bulk Length
3/4"	NL440-12	1.20"	6100 psi	4.7"	.94	B	50 ft	197 ft
1	NL440-16	1.50	6100	5.9	1.35	A	50	197
1-1/4	NL440-20	1.77	5100	8.2	1.72	B	50	197
1-1/2	NL440-24	2.06	4400	11.4	2.08	C	20	50
2	NL440-32	2.63	3700	16.9	2.99	D	20	50

Temperature Range: -56°C (-69°F) to +125°C (257°F)

Tube: Black, seamless, oil resistant synthetic rubber.

Cover: Synthetic black, high quality, oil, abrasion and weather resistant rubber.

Reinforcement: Four high tensile steel wire spirals.

Typical Ends: • N635 Crimp Series
