

NX-18  
Portable Crimper  
Only w/ Dies

NX-18A  
w/ Air/Hydraulic Pump & Tooling Package

NX-18H  
w/ Hand Pump & Tooling Package

### NX-18 Portable Crimpers

These complete crimper sets come with crimper, tooling and pump (to be selected), and will crimp from 3/16" to 1" hoses. The NX-18 base unit weighs under 45 lbs and comes with carrying case for the dies. The dies are held in place with magnets and are easy to insert and remove. Units come with handles & quick connects for easy carrying and takedown, and have a dial micrometer for setting crimp diameter.

Part #	Description	Stk
<b>Portable Crimper</b>		
NX-18	NX-18 w/ Tooling Pkg (No Pump)	D
NX-18A	NX-18 w/ Air/Hydraulic Pump & Tooling Pkg	D
NX-18H	NX-18 w/ Hand Pump & Tooling Pkg	D
<b>Die Sets</b>		
NX-18DIE-xxMM	10mm to 37mm Crimper Die Set Only	D

NX-P300A  
Air/Hydraulic Pump

NX-P300H  
Hydraulic Hand Pump

### Pumps For NX-18 Portable Crimpers

These pumps can be connected to NX-18 and other crimpers that require inlet pressure up to 10,000 psi. These can be connected with threaded hose ends directly or with the use of quick connects.

Part #	Description	Stk
NX-P300A	Air/Hydraulic Pump	D
NX-P300H	Hydraulic Hand Pump	D

White China  
Marker

### Nexus Insert Depth Gauge

Our Insertion Gauge Block ensures proper depth for installation of crimp ends (NX-DG-N635 is for N635 crimp cplgs). It allows the 'cut hose end' to be inserted into the appropriate hole, and then mark the depth with a marker. This marking permits a simple quality control check to ensure the coupling is inserted all the way before and after the crimp. If attaching to a workbench, the block has convenient mounting holes in each corner.

NX-DG-N635	For N635 Ends (#4 - #16)	D
NLS-12100	White China Phano Marker	D

Includes NX-TOOL Quick Change  
Tool For NX-20T/32T Only

Includes NX-PEDAL  
For NX-20T/32T Only

NX-20T 1-1/4" Crimper

NX-32T 2" Crimper

### NX-20T & NX-32T Crimpers

These shop crimpers are robust units for use in shops that require crimping up to 1-1/4" (NX-20T) or 2" (NX-32T). These units are powered by 220V 1 phase, 20 amp requirements and come with floor stands which hold the dies - or they can be bench mounted with die storage separate. Dies are changed using the included quick-change tool, and a foot pedal is also provided for convenient operation. Crimp settings are entered through a touch screen for precise crimping, and the system can store settings for repeated use. These units control functions allow for full or limited return, hand controls or plunger assembly (sold separately).

Part #	Description	Stk
<b>1-1/4" 220V 20A Crimper w/ Touch Screen</b>		
NX-20T	1-1/4" Crimper w/ Dies 220V 20A	D
<b>2" 220V Crimper w/ Touch Screen</b>		
NX-32T	2" Crimper w/ Dies 220V 20A	D
<b>Additional Parts</b>		
NX-TOOL	Quick Change Tool For NX-20T/32T	D
NX-PEDAL	Foot Pedal For NX-20T/32T	D
<b>Die Sets</b>		
NX-20DIE-xxMM	Dies For NX-20T Crimper	D
NX-32DIE-xxMM	Dies For NX-32T Crimper	D

\*Other replacement parts are available upon request.

### Nexus Hose Cleaning Kit

Our Nexus hose cleaning kit offers an affordable price point, and has many of the same features of our premium Eliminator kits to remove contaminants prior to hose installation. The NX-HC-KIT1 comes with projectile gun, nozzles for #4 to #32 hoses. Projectiles sold separately.

Part #	Description	Stk
NX-HC-KIT1	Launcher, 9 Nozzles & Case (#4 - #32)	D
