

# Fine Motor & 1:1 Correspondence

Numbers 1-10

And blank

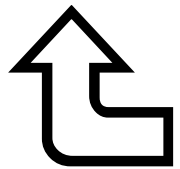

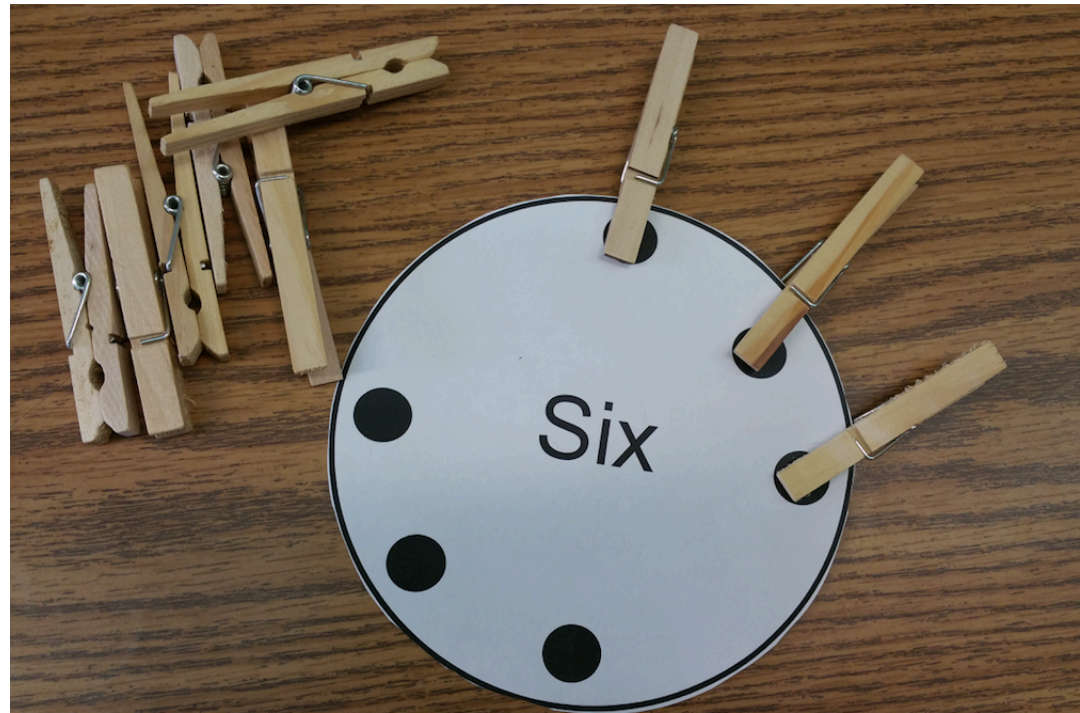

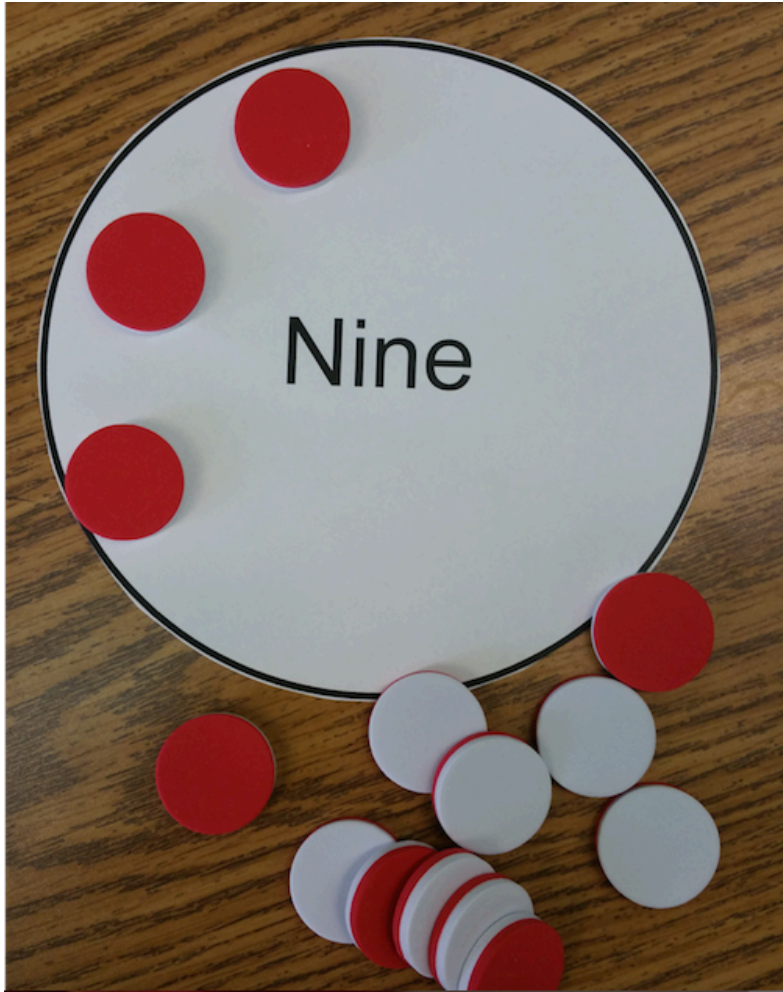

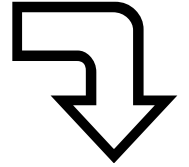

With dots/ Without Dots

# How to use this resource

1. Print each slide.
    - cardstock works well. I just use regular paper then reinforce with colored construction paper
  2. Laminate to extend the life of this product
  3. Students can use paperclips, clothespins or even whiteboard markers to mark/show their answers
  4. There is also a blank template if you would like to use laminated pieces with Velcro, the possibilities are endless!
- Please leave me feedback, this is my first product on TPT
