Nossa história (Our story)

We're a language school focused on cultural and immersive language learning experiences. For the past 3 years, we've been offering online courses 100% focused on personalized conversation in Portuguese, helping our students - the new Parrots - gain fluency in one of the world's most romantic and melodic language.

Learn in a way that's practical, dynamic and connected to your reality. Speak Portuguese with confidence and explore new opportunities! 🌍✨

Público-alvo (Audience)

We work with students of all ages and all levels of Portuguese. We know that learning takes time and patience, which is why we are prepared to teach complete beginners as well as intermediate and advanced students, or those who have started and then stopped studying the language several times.

Language courses often have a high drop-out rate, whether due to the difficulty of integrating learning into everyday life, financial constraints or personal reasons. To remedy this, we at Parrot have developed a methodology based on 100% personalized courses, tailored to the individual interests of each student. This makes learning more engaging and motivating, as the subjects covered are part of each student's daily life and passions!

CONHEÇA NOSSA PROFESSORA

Professora Laura

Hi! I'm teacher Laura, polyglot, traveler and founder of Parrot!

I speak Portuguese, English, French, Spanish, German and Norwegian. After living in Norway for a long time and traveling to 14 countries, I came back to Brazil and decided to teach Portuguese for foreigners, since I saw the interest for Brazil around the world is huge and our language is, indeed, very beautiful and challenging.

I have a degree in History and I'm also a Brazilian dancer. My cultural experience and my passion for Brazil helps me to bring a unique approach to language teaching, focusing mostly on our culture and the connections between language and history.

Let's learn more about Brazil, shall we?
Come and book a trial lesson with me!

Métodos (methods)

Private and group lessons last one hour. We work with a hybrid system of methods, defined according to the needs and profile of each student:

 **Grammar and culture book: SAMBA** - immersive book that follows a communicative approach, emphasizing real-life conversations and cultural contexts. It integrates grammar, vocabulary and explanations about the Brazilian culture through dialogues, interactive activities, and authentic texts. The method encourages active participation, helping learners develop fluency by engaging with Brazilian Portuguese in meaningful situations.

 **The Berlitz Method** - 100% Portuguese lessons, even for beginners. Learning takes place by trial and error, with recognition of images, situations and demonstrations. Perfect for those who want to feel immersed in the language, as if they were in a French-speaking country.

 **Real & Personalized course** - Lessons tailored to the student's interests! We can work with content from series, films, comics, make-up tutorials, dance, sports and much more!

Each student has a unique way of learning, and we make sure your lessons are engaging, effective and, most importantly,
COMFORTABLE! ✨
