SP-PT/S

Biodegradable Liquid Pump Truck/Spatter Release

PRODUCT DESCRIPTION:

SP – PT/S biodegradable concrete release was specifically developed for concrete pump trucks, redi-mix trucks, chutes, tools, and all spatter related applications. Easily sprayed, swabbed or brushed, SP-PT/S eliminates or reduces degreaser requirements, will not attack rubber, seals or gaskets, easily washes off and to date has not discolored or harmed painted surfaces. Often eliminates or reduces scrapping concrete spatter during multi-hours of application and transportation.

ENVIRONMENTAL REPORT CARD: *Worker and Environmentally Friendly*

- *Contains no solvents*
- *Biodegradable*
- *VOC compliant*
- *Non-carcinogenic*

FEATURES & BENEFITS:

- *Low odor, negligible, almost non-existent.*
- *Zero vegetable oils. Unlimited product shelf life.*
- *Offers cleaner trucks, chutes and tools.*
- *Slow evaporation rate, zero water, zero solvents.*
- *High Flash Point, 300°F+; Auto-Ignition, 455°F.*
- *Available in returnable/reusable 275 - 500 gallon tote tanks, 55 gallon drums or 5 gallon pails. (also available in tank wagon quantities.)*
- *Often eliminates or reduces scrapping concrete spatter.*

DIRECTIONS FOR USE:

*Run undiluted as packaged. **GENERAL APPLICATION:** brushing, swabbing, sponge, roller or spraying. An even shine or gleam on any type of surface is generally all that is required. If spraying, a fine mist should result in an even film that will adhere to most surfaces.*

PHYSICAL DATA:

*Appearance Clear to Light Amber
Odor Negligible
Bulk Density..... Approx. 7 lbs. per gallon
Solubility In Water..... Insoluble*

SAFETY AND HANDLING:

Consult Material Safety Data Sheet for detailed information.

FIRST AID:

Consult Material Safety Data Sheet.

STORAGE:

Store indoors or outdoors. Product performance not affected by temperatures, however, freezing should be avoided.

DISPOSAL:

Dispose in compliance with federal, state and local regulations.
