

Urban Perinatal Education Center

Where Equity Meets Community

You ARE enough and you ARE NOT alone.

The Urban Perinatal Education Center is a safe space reflective of the Black, Indigenous, and People Of Color birthing community to support their perinatal and maternal health in our communities. Our services focus on addressing inequitable and unjust adverse outcomes through collective, intentional care, with racial and cultural representation.

Contact us today for our childbirth education classes, doula referral network, perinatal programs, and early pregnancy support services.

KINmmunity to support your community
