MODERN Motion

Orla

Crafted for Modern Living.

Orla combines contemporary design with intelligent powered comfort. Its refined silhouette, 360° swivel base and fully powered Rise + Recline functionality bring effortless movement and support into the modern home. Designed to complement contemporary interiors, Orla offers the comfort and functionality of a traditional Rise + Recline chair without compromising on style.

With independent back and footrest movement, an articulated ratchet headrest and supportive arms, Orla can be tailored to your preferred position. From everyday seating through to deep recline, its intuitive controls make it easy to find a position that feels right. Thoughtfully engineered for comfort, Orla is designed to support you throughout the day while looking at home in any modern living space.
