

ETHER FORCE COIN

Name : Ether Force

Symbol : Ether

DECIMAL : 9

Contract: 0x025E01b7FadB49Ad0121e524fb7550B5c1db477C

Total Locked Tokens : 116348512.18940899 Ether

Unlock Date : 10 Nov 2022 at 14:18

Total Supply:
150,000,000 Ether
SMART CHAIN

What is Ether Force?

Ether Force Protocol is a community driven, fairly launched DeFi Token. During each operation, 2 simple functions occur: interruption and reflection.

10% is deducted from the merchant and 10% is distributed to other users. Users who have Ether Force in their wallets will

receive 10% Ether Force rewards for each transaction. The future is reshaped with Ether Force

OVERVIEW

Progress in Science and Technology has brought more and more significant changes to the whole world, giving birth to blockchain technology and cryptocurrencies. This technology has the potential to change how we interact in a financial environment. Blockchain technology can act as a bridge between businesses and consumers and create an open, transparent and cross-border, multimodal, online business network that can provide a single point of service.

Cryptocurrency is potentially the largest digital asset for investment as it is user friendly, secure and allows to lower high transaction fees. Leveraging blockchain technology, the cryptocurrency has established a decentralized, transparent and immutable accountable system

Problem

Regarding the relationships between Companies (manufacturers) and Consumers (end users), end users do not feel like part of the company as their loyalty is not rewarded and is not taken into account when making important decisions.

In the scenario above, the growth of the organization only benefits the founders, board members, shareholders and employees. but imagine a company where every transaction, purchase and every spend benefits you as a consumer.

As seen in the example, the Ether deducted from the buyer is distributed to 4 people as 10%. Holders gain 10% ether for the amount of Ether they hold. All holders earn 10% Ether on every transaction without any limit.

Solution

The core idea of the Ether Force Ecosystem is to combine cryptocurrency, blockchain technology and different businesses in one place to reward users for their loyalty and become stakeholders who share revenue and participate in decision-making processes as “Ether Force Owners”. This will allow users to spend, grow with the company, and participate in decision-making without worrying about negatively impacting their portfolio. Ecosystem growth benefits all users with every transaction, every purchase, and every spend on our services.

LIMITED SUPPLY

Ether will be capped at the MAX supply to 150 MILLION Tokens. Ether, which will never be published again, will be in circulation under 13 million within 2 years. More will not be published in 2 years.

ASSET

Ether Force is designed to rapidly gain value and become one of the largest assets in any owner portfolio. Ether Force value is fixed to ecosystem growth and value.

DISTRIBUTION TABLE

- Air Drop: 3,1% 4.500.000
 - Stake/Mining: 41,8% 66.000.000
 - PRE/SALE: 10,4% 15.150.000
 - Blockchain: 20,9% 30.300.000
 - Team: 11,5% 16.500..000
 - EXCHANGE: 12,2% 17.550.000
- TOTOAL SUPPLY :150 MILLION

Ether Case

Once we complete our Ether Force blockchain infrastructure, we will start our Ether Case mining project. Ether Case is a solar powered mining device. It is environmentally friendly with its clean energy feature. We will bring you a technology that does not exist in the world. We will design the Ether Case mining device with low cost and high efficiency. The project of the Ether Case device is a very large and costly project in which the best experts in the world will work, so we need to achieve our goals. If we achieve our goals, we will create an unprecedented device. We plan to start the project work in 2023.

Ether Force

Clean energy for a better world

OUR VISION

Our goal is to create an efficient and scalable decentralized digital one-stop shop market economy with a sustainable economy (Ether Force Ecosystem) powered by blockchain and cryptocurrency (Ether Force) and generate real world value through fair distribution of wealth.

Ether Force is designed to be Europe's digital Gold, Europe's most valuable crypto asset and Europe's Bitcoin.

We aim to spread the Ether Force token all over the world.

RECOVERY & BURNING

We will implement a buyback and incineration program. We buy back tokens with 10% of ecosystem profits every month and burn them quarterly

ROAD MAP

- 14.09.2021

- Ether Force bep20 binance smart chain creation in infrastructure.
- Etherforcecoin.com website creation.
- Creating social media accounts
