

STOCK VS CRYPTO

A stock exchange trades in company stocks while a cryptocurrency exchange trades in digital currencies

Stock Market

Cryptocurrency

ASSETS TRADED

Shares traded on stock markets represent equity in a company.

Buying cryptocurrency does not represent equity in a company.

VOLATILITY

Large trade volumes increase the stock market's stability.

Cryptocurrency exchanges experience greater volatility.

FEES & REGULATIONS

Stock exchanges have grown to be heavily regulated marketplaces.

Trading on cryptocurrency exchanges incurs relatively fewer costs.
