Product Information

MINOX Compact binoculars

MINOX BD 8 x 22 R
with neck cord
Order No.....62100

MINOX BD 10 x 25 R
with neck cord
Order No.....62105

MINOX BD 8 x 24 P
with neck cord
Order No.....62000

MINOX BD 10 x 25 P
with neck cord
Order No.....62005

Technical data

	BD 8 x 22 R 	BD 10 x 25 R 
Magnification	8 x	10 x
Lens diameter	22 mm	25 mm
Exit pupil	2.75 mm	2.5 mm
Field of view	131 yds./1000 yds.	105 yds./1000 yds.
Close-up range	2.5 m (8.2 feet)	3.0 m (9.8 feet)
Diopter compensation	± 3 dtp	± 3 dtp
Twilight factor	13.3	15.8
Relative brightness index	7.6	6.25
Operational temperature range	14 °F to 113 °F	14 °F to 113 °F
Height	105 mm (4.2 inch)	105 mm (4.2 inch)
Width (folded)	64 mm (2.6 inch)	64 mm (2.6 inch)
Depth (folded)	44 mm (1.8 inch)	44 mm (1.8 inch)
Weight	265 g (9.3 oz.)	270 g (9.45 oz.)
Weatherproof	Yes	Yes

Technical data

	BD 8 x 24 P 	BD 10 x 25 P 
Magnification	8 x	10 x
Lens diameter	24 mm	25 mm
Exit pupil	3.0 mm	2.4 mm
Field of view	114 yds./1000 yds.	87.4 yds./1000 yds.
Close-up range	2.9 m (9.5 feet)	2.9 m (9.5 feet)
Diopter compensation	± 3 dtp	± 3 dtp
Twilight factor	13.9	15.8
Relative brightness index	9	6.25
Operational temperature range	14 °F to 113 °F	14 °F to 113 °F
Height	97 mm (3.9 inch)	97 mm (3.9 inch)
Width (folded)	87 mm (3.5 inch)	87 mm (3.5 inch)
Depth (folded)	58 mm (2.3 inch)	58 mm (2.3 inch)
Weight	275 g (9.6 oz.)	270 g (9.45 oz.)
Weatherproof	Yes	Yes

Roof prism Binoculars
in pairs, black
Order No.64403

Eyecups for MINOX
Porro prism binoculars
in pairs, black
Order No.64404

The new MINOX compact binoculars

BD 8 x 22 R / BD 10 x 25 R / BD 8 x 24 P / BD 10 x 25 P

A long tradition in optical competence

For MINOX with its long tradition in the manufacture of optical devices, the introduction of the four new compact binoculars marks the beginning of a new era in the history of optics. In designing these new binoculars, the optical engineers at MINOX have succeeded in ideally implementing their know-how in the field of optical systems and precise mechanics.

In addition, all MINOX binoculars have an extremely sturdy ABS body which is further protected by a shock- and weatherproof rubber covering. Spectacle wearers will be happy to note the separate diopter setting with convenient, precise adjustment and the folding eyecups for optimal adaptation to their specific needs.

The binoculars can be divided into two groups, according to construction type: roof prisms (R) and porro prisms (P). Both types are available with 8 x and 10 x magnification.

Thanks to the double-hinge design of the MINOX BD 8 x 22 R and the MINOX BD 10 x 25 R, these binoculars are of extremely compact design.

The center-hinge construction of the MINOX BD 8 x 24 P and MINOX BD 10 x 25 P is especially user-friendly.

To protect the new MINOX binoculars during transport and storage high-quality leather bags with belt loop are available for both types (porro and roof).

Just turning one of these new models in your hand is enough to reveal those well-known MINOX qualities: small size, reduced weight, extremely compact design and excellent optical systems. In addition, the binoculars distinguish themselves by their sophisticated lens systems and large fields of view, ensuring extraordinary viewing, optimal contrasts and enhanced reproduction of details. The anti-reflection multicoating and the high-quality prism glass ensure brilliant images adjusted to the maximum sensitivity of the human eye. Last but not least, the ergonomic design allows for easy handling and shake-free, hand-held observation - whether you use the binoculars for nature observation, at sports events, or at the opera or the theatre.

With the introduction of these new binoculars, the name MINOX and a 30-year warranty continue to stand for quality, compact construction and optimal design.
