# OUR BEST FOR YOUR HUNT

## THE MINOX X-HD SERIES

See more and identify your game faster – even in poor lighting conditions and at greater distances? No problem with the MINOX X-HD binoculars: the exclusive HD glass ensures high contrast and excellent detail recognition. Their high transmission enables a bright image when the last light is fading and in dark conditions. Not only that, you can benefit from the MINOX Comfort Service, which gives you a full 30-year warranty after registering your product. All binoculars in the X-HD series are superior optics – Made in Germany.
