OUR FLEET

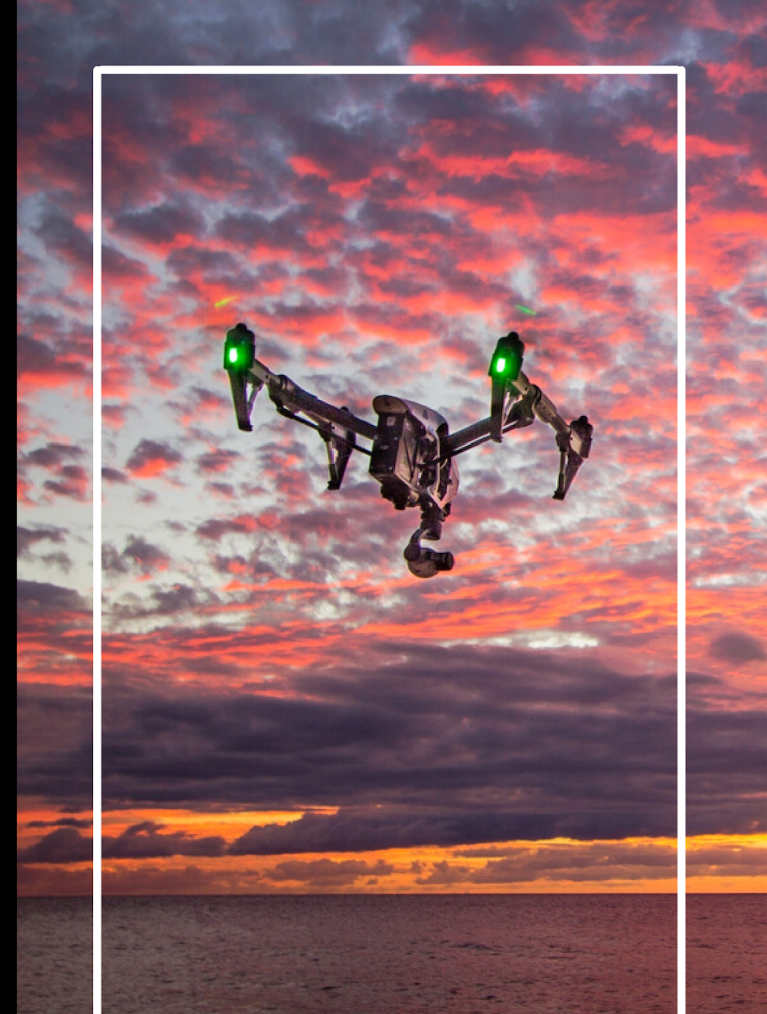

Deadly Drone Services utilise a range of UAV technologies to meet your various project needs. From the smallest jobs, through to larger commercial projects, we've got you covered!

Our fleet includes all the latest (and despite our name) safest models you have come to rely upon including the Inspire 2, Phantom 4 Pro V2, Air 2s and the Matrice 300 with LIDAR and FLIR payload capabilities.

OUR PILOTS

Deadly Drone Services pilots are all skilled and experienced Indigenous drone operators with Remote Pilot Licence (RePL) and Remote Pilot Operator's Certificate (ReOC) certification from the Civil Aviation Safety Authority (CASA). Our pilots know how to achieve your desired outcome safely and efficiently.

Give us a try!

DEADLY DRONE SERVICES

Deadly Drone Services is an exciting and new 100% Indigenous owned and operated business in SE Melbourne.

We provide a range of dependable drone services including aerial imagery and videography for environmental, construction and pre-construction, 3D modelling, search and rescue, visual inspections, outdoor events 2D/3D mapping and more!

We can assist with your organisational Indigenous procurement aspirations and are currently seeking opportunities to grow and form innovative mutually beneficial partnerships into the longer term. After all, we've been doing business here for over 35,000 years!

We'd love to discuss your next project at your nearest convenience.
