## THE BREAKING BARRIERS WEEKEND

“The Alliance” inaugural weekend, is inspired by the painting “Breaking Barriers” by artist Ray Simon of Cleveland Ohio.

The portrait of the first players to integrate the NFL setting the course in America history for inclusion and the breaking of the barrier in its sport. This act alone has had a significant impact on American culture by showing how all walks of life can come together as one with the same purpose and goals regardless of differences or exposure.

This painting Breaking Barriers can serve as inspiration and vision, for a new future together.

Breaking Barriers Weekend is an initiative featuring two high impact activations the **Breaking Barriers Community Resource Collab Zone** and the **Breaking Barriers Brunch and Networking Experience**.
