

DECORFLOOR

NATURAL COLLECTION

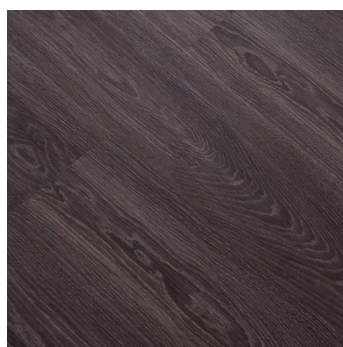

Are you in search of flooring that combines the latest technology with natural aesthetics? Discover the Decorfloor SPC Flooring, a range that stands at the forefront of flooring innovation. This collection features Rigid Core Solid Polymer Composite (SPC) technology, representing a significant advancement over traditional solid LVT flooring. It's designed for those who seek durability, style, and cutting-edge composition in their flooring solutions.

The collection includes ten wood effect and ten stone effect tile finish options, each featuring a wear layer of 0.30mm. These options provide a range of aesthetic choices, ensuring that there is a style to match any interior design. Opt for the Decorfloor SPC Flooring with built-in underlay for a sophisticated, high-performance flooring solution that beautifully mimics natural materials.

DECORFLOOR

NATURAL COLLECTION

The Natural Flooring Collection in this range boasts a composite core construction, distinguished by a higher filler content and a higher density compared to standard options. One of the key aspects of this technology is the omission of a foaming agent, which traditionally introduces air bubbles into the core. The result is a thinner, harder, and stiffer plank or tile, offering an unparalleled level of durability and stability.

Stone Effect
