# Bath Guide

## Freestanding

Create the “wow” factor in your bathroom with one of our stunning freestanding baths. Suited to all spaces, they create a spa-like, luxurious aesthetic. Freestanding baths grant the freedom to place the bath anywhere in your bathroom.

## Straight Baths

Straight baths are a popular and versatile option. Typically wall fitted, they are available in single or double ended styles. Double ended baths have taps fitted along one side of the bath, while single ended have taps at one end.

## Corner/Offset Baths

The ideal solution for space saving. Corner/Offset baths do not require a long wall as straight baths do, so they can be neatly tucked into corners where another bath may not fit. These baths are available in left or right-hand orientation.

## Shower Baths

Shower Baths are the perfect balance of luxury and practicality. There are 2 styles to choose from: P-shape and L-shape. These baths are wider at the showering area for comfort when standing. Both are available in left or right-handed orientation.

## Slipper Baths

Slipper baths offer a comfortable lounging position for the ultimate relaxation experience. Single-slipper baths elevate at one end, and double-slipper tubs are raised at both ends. Whether reading or simply resting, you can comfortably unwind in a slipper bath.

## Endura Baths

For added durability, our range of Endura baths offer additional layers of GRP Reinforcement compared to a standard bath. Endura baths are available in double and single-ended options.

## NEW Freestanding System Baths

Indulge in the ultimate bathing experience with our New Freestanding System Baths, featuring a state-of-the-art Heated Air Jet System. Available in a select choice of contemporary freestanding bath designs, these baths offer a luxurious spa-like experience in your own home. The HEATED AIRFLOW TECHNOLOGY ensures that the air entering the bath is warm, preventing the water from cooling down and creating a much more comfortable and enjoyable bathing experience. This feature helps maintain a soothing, pleasant atmosphere throughout your bathing experience, adding to the overall relaxation and therapeutic benefits.

**Heated Air Jet System:** Pre-warmed air creates a soothing, massaging effect for enhanced comfort.

**20 Chrome Jets:** seamlessly integrated into the base of the bath to deliver a gentle, invigorating air massage.

**Three-Function Control Button:** Easily toggle between Standard Mode for a continuous, gentle air flow or Pulse Mode for a rhythmic, energising massage.

**Self-Cleaning Cycle:** Automatically runs for 3 minutes after each use to flush out water from the pipes, ensuring cleanliness and hygiene.

**Dry-Running Protection Sensor:** Automatically shuts off the air jets if the water level is too low, preventing potential damage to the system and ensuring safety.

Suitable for  
**AIR JET SYSTEM**
