

HEATING

Elevate your bathroom comfort and experience luxurious warmth with our stylish range of heated towel rails and radiators. Not only do they provide a cosy and comfortable environment, but they also add to the overall aesthetics of your space. Our collection of heated towel rails and radiators is built with enduring quality and compliance, ensuring peace of mind for homeowners.

With rigorous testing and adherence to industry standards, you can trust that our products deliver superior performance and longevity. Choose from vertical or horizontal designs to suit your bathroom layout and maximise space efficiency.

Our ranges also offer a wide selection of stunning finishes, such as chrome, Black, brushed gold, and brushed nickel, allowing you to effortlessly complement your bathroom decor and create a cohesive design. Treat yourself to the ultimate indulgence by stepping into a warm and inviting bathroom. Explore our beautiful range of heated towel rails and radiators and enhance both the functionality and style of your space. Embrace the comfort and elegance that our collection has to offer and transform your bathroom into a haven of relaxation.

Radiator Guide

Heating

Stainless Steel Towel Warmers

Stainless steel is a versatile, strong, and durable material that is resistant to rust and corrosion. Easy to clean, it has a modern appearance, and is environmentally friendly, making it ideal for everyday life.

Ladder

Ladder heated rails are a stylish bathroom staple. These rails are available in three colour options and a variety of sizes. Ladder heated rails offer a sleek and minimalistic look, keeping your towel snug, warm and ready for use.

Horizontal

Horizontal heated rails are neat, compact and perfect for placing under windows. This is usually the coldest place in the room. Placing a heated rail here will protect against the cold and makes good use of your wall space.

Vertical

Vertical heated rails make the most of your available wall space, allowing you to choose a wider vanity unit or shower enclosure. These rails offer a striking focal point and are available in innovative contemporary designs.

Quality Tested

Our products undergo stringent testing, within the EU, to meet the EN442 standards, guaranteeing optimal performance and efficiency. Using high-quality materials and rigorous testing processes ensure that our radiators are durable, providing long-term value for your investment.

DELTA Ratings (ΔT)

A Delta rating on radiators, often referred to as the Delta T value, measures the temperature difference between the radiator's average surface temperature and the room temperature. This helps select a radiator with adequate heat output to heat a room efficiently. Delta T50 is the European Standard, and assumes a flow temperature of 75°C, a return temperature of 65°C, and a room temperature of 20°C. This reflects the typical operating conditions in many central heating systems. Delta T30 or Lower (For Low-Temperature Systems) is used for systems like underfloor heating or heat pump, which operate at lower flow temperatures.

BTU (British Thermal Unit)

BTU is the measurement used to calculate how much heat output is needed to warm a room. Ensuring that your radiators and towel warmers are appropriately sized is critical for efficient operation. Equipment with too high or too low BTU ratings can lead to inefficiency, higher energy costs, and reduced comfort. Displaying the BTU values at different temperature differentials helps installers accurately size and select heating products based on the specific requirements of both high and low-temperature heating systems. Speak to your qualified installer about your heating system type and the BTU requirement.

Speak to your qualified installer about your heating system type and the BTU requirement. BTU (British Thermal Unit) is the measurement used to calculate how much heat output is needed to warm a room. It's important that this is calculated accurately, to make sure your comfort level matches your space.

ARYA Stainless Steel Towel Warmers

Experience the ultimate bathroom upgrade with our ARYA range of stainless steel towel warmers. Crafted from high-quality stainless steel, a strong and durable material, they offer longevity and exceptional heat distribution.

No more waiting for your towels to warm up on chilly mornings. Efficient heat distribution is the key feature of the ARYA range. With rapid heating capabilities, the range provides you with warm towels in a matter of minutes.

What truly sets the ARYA range apart is its remarkable durability and efficiency. Corrosion-resistant, they will maintain their pristine appearance over time, ensuring a long-lasting investment for your bathroom.

Say goodbye to standard radiators and embrace the benefits of premium quality stainless steel.

TECHNICAL SPECIFICATION

We know precision is an important part of planning your dream bathroom, that's why in the following section we have collated specific technical information on the **SONAS Bathrooms** products featured in this brochure.

All the basic detail and information you require is presented in an easy to use format, however should you require any further information or general advice, please do not hesitate to contact your approved **SONAS** dealer.

Planning tips to help you design your dream bathroom

- 1 Measure your bathroom carefully. Using our grid on the opposite page draw out your bathroom space to scale.
- 2 Accurately mark out all fixtures such as doors, windows and radiators, also making note of which way and how much the door protrudes into the room.
- 3 Draw in shapes to best represent your bathroom items: wc, basin etc.

Using the scale 1 square = 100mm

2 Year Warranty

The aforementioned Warranty applies to all replacement products and parts within the Warranty period, labour will be covered for a period of 2 Years.

(*) Cartridges and flexi hoses are covered by a 15 year warranty across all ranges, except for the Corby range, which is covered for 2 years.

() Cartridges in the Hakk and Alita & Urban ranges are covered by 15 year warranty, 5 Years on all other models.**

(*) Aspect, City+ & Zeba rollers covered by a 5-year warranty, 2 Years on all other models.**

Please note that above Warranty and extended warranties are applicable for goods installed in a domestic environment with reasonable usage. Any item installed in a public or commercial area will be subject to 1 Year Warranty. Faults must be reported within the respective Warranty period from proof of purchase date.

Warranties are limited to product defects and failures arising from the manufacturing process and does not apply to products that have been damaged as a result of transit, misuse or incorrect installation.

While all products are subject to quality control checks by the manufacturer, from time to time a product or batch of products may enter the market that does not meet the necessary quality standard. SONAS Bathrooms will replace any product with a visual defect or that is manufactured outside of the allowable tolerances according to EN/UKCA standards, however; all products must be checked for these defects by the installer as SONAS Bathrooms will not be responsible for any re-titting or re-titting costs associated with replacing the product.

SONAS Bathrooms must be given reasonable opportunity to inspect the product in the installed situation, if removed the product must not be destroyed but should be retained for inspection. Photographic or video media of the product in the installed situation may be requested. Suitable access must be provided in order to reasonably and cost effectively allow for a product to be repaired or replaced under warranty. SONAS Bathrooms will not be responsible for reinstallation of products that are tiled in to areas without suitable access.

Exclusions of Warranty

- / Incorrect installation not in accordance with fitting instructions and best plumbing practice.
- / Failure to care for and maintain product as per care & maintenance guidelines.
- / Improper use of product not in accordance with the intended use and limitations of the product specifications.
- / Wilful or negligent damage.
- / Ex display items.
- / If excess water levels are found in vanity units.
- / Scratches or defects reported post installation.
- / Products that are fitted and then reported damaged.
- / Damage caused by specific environmental circumstances, excess or negative pressure in the line, insufficient operating pressure as per the product technical specifications, limescale or hard water, aggressive cleaning agents or chemicals.

Cleaning & Maintenance

- / All products should be cared for with a regular and suitable cleaning regime.
- / The use of aggressive cleaning agents should be avoided and in particular on chrome, brass and aluminium surfaces a soft damp cloth and warm soapy water is sufficient.
- / Suitable ventilation should be provided and in cases of bathroom furniture materials are water resistant but not water proof, therefore regular maintenance and the removal of excess water on or around the product is necessary to avoid damage.

Service Engineer Call Outs

- / In cases where products fail under warranty, a replacement part, product or repair will be provided for the period of the Warranty as per the table above, in cases of labour to remedy faulty products, this will apply for a period of one year.
- / We may need to change the product due to manufacturing issues. In this case, we will always try to get a product to match as closely as possible.
- / If our on-site inspection determines the reported issue is not a manufacturing or materials defect, a call out charge of €100.00/£100.00 & VAT may be applied.
- / SONAS Bathrooms may choose at our own discretion to provide a directly employed engineer or appoint a suitably qualified contractor to replace or repair a faulty product.
