

TAVISTOCK SHOWER SYSTEMS

Our shower collection simplifies the buying process for you by offering complete shower systems for a ready-to-install solution. They cover a wide range of styles from classic to contemporary and round to square design. We have a choice of valve options, depending on your bathroom styling and the number of showering functions you need.

Choose from our collection of concealed, exposed or bar shower valves. We have a variety of single function (operating a single shower component only, such as a shower handset) or dual function valves (operating two shower components, such as a shower handset and an overhead shower head).

CONCEALED VALVES

If you prefer a sleek, clean look then opt for a concealed shower valve, with the valve hidden in the wall and a trim kit. This has the added benefit of flexible plumbing enabling you to position the valve away from the shower flow, so you can turn the shower on without getting wet until you want to. Classic and contemporary styles are available.

PUSH BUTTON VALVE

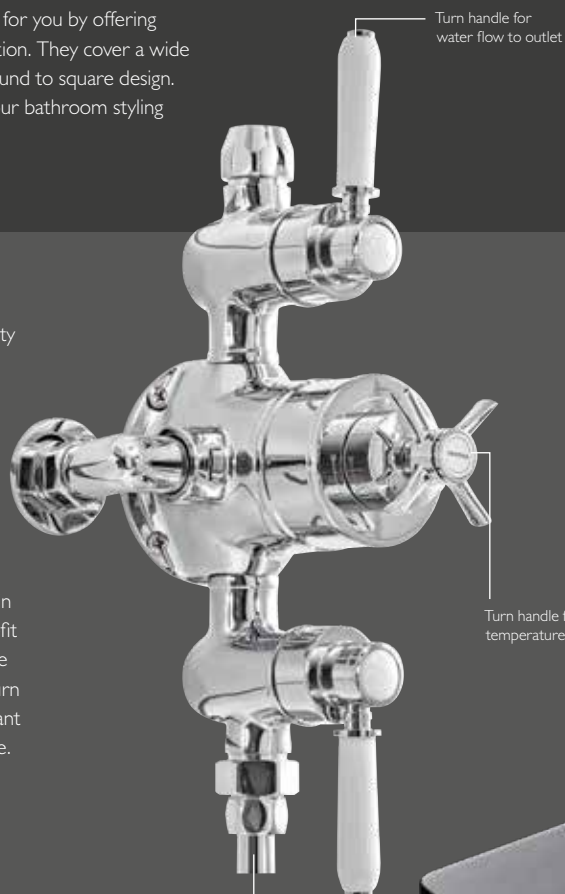

Our ergonomic valve design provides instant on/off activation for a seamless showering experience. This innovative design allows you to easily control water flow and three luxurious spray settings, all at the touch of a button with a central temperature dial for convenience. All of our push button shower valves are easy to install and can be completely removed to be serviced, without damage to the wall or the need to re-tile.

EXPOSED VALVES

An exposed shower valve offers a simple installation solution as the valve showcases all working parts. Perfect for a traditional period style bathroom, making it just the right finishing touch.

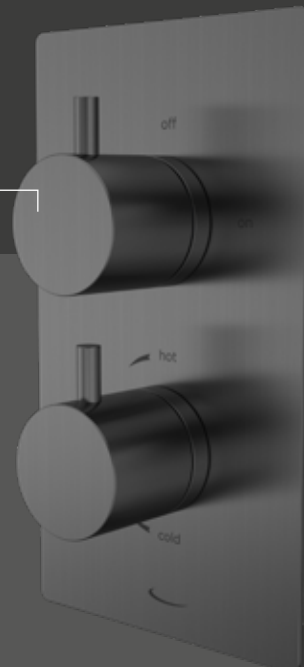

BAR VALVES

Our contemporary bar valves are easy to install, with all of the components mounted on the wall. Look out for the 'Cool Touch' options, designed to stay cool to the touch during use.

Classically designed dual function exposed valve

Quantum contemporary dual function concealed valve

Turn handle for temperature control

Push button valve can be installed horizontally or vertically

Contemporary dual function bar valve

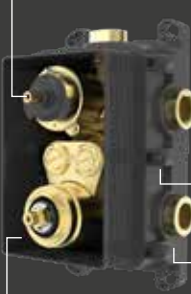

Precise temperature control - set the optimal temperature, and the valve will automatically maintain it

Our UniBox is compatible with all Cohort shower trim kits providing multiple finish and function options

Can be tailored to supply single, dual or triple outlets

Slim design - Minimum depth in wall required - 60mm

Compact all in one UniBox reduces shower installation time

Removable components for easy cleaning and maintenance

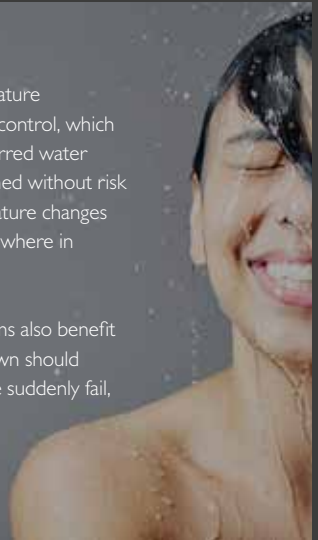

UniBox SHOWER VALVE

Engineered for easy installation, a versatile shower valve redefining flexibility for shower systems. Easily customised to your choice of stylish trim kit finish alongside the option to control multiple shower functions, all in one sleek solution, for a truly personalised experience.

SAFE SHOWERING

Our shower systems feature anti-scald thermostatic control, which ensures that your preferred water temperature is maintained without risk of unexpected temperature changes due to water usage elsewhere in the household.

Tavistock shower systems also benefit from automatic shutdown should the cold water pressure suddenly fail, guaranteeing you a safe showering experience.

THERMOSTATIC TECHNOLOGY

All of our shower valves are built to the highest technical specification. Our shower valves have been designed to ensure smooth, precise temperature control of the water flow from your shower system.

PEACE OF MIND

All our products are guaranteed against defective workmanship or materials. Such is our confidence in the quality of our shower systems that we offer a 10 year guarantee, which includes the thermostatic cartridge.

CONTEMPORARY SHOWER SYSTEMS

Exemplary design, clean lines and utilitarian elegance form the basis of our contemporary shower collections. Each element is engineered with the highest quality components for uncompromising performance and durability. With many styles and showering configurations available, our comprehensive range gives you maximum choice and flexibility.

INDEX CONCEALED VALVE SHOWERS

AXIOM PUSH BUTTON SHOWERS

Our most intuitive system yet, Axiom combines a sleek, concealed design with ergonomic push-button control that provides instant on-off activation. A central dial provides precise temperature control, while the thermostatic valve prevents scalding to ensure a safe shower for the whole family. Available in Black & Chrome.

All Axiom shower systems benefit from the following features:

- Available in single, dual and triple function options to best suit your requirements
- Push-button control for convenient on/off activation
- Axiom valve can be mounted vertically or horizontally and can be easily removed and serviced even after tiling, allowing for ease of installation and maintenance
- 10 year guarantee, includes thermostatic cartridge

The Axiom handset has three different functions (massage, rain & rain massage) and can easily be changed by pressing the bottom of the shower head
