

bathrooms *to love*

Find out more *Online*

Our brochure is full of inspiring images and product information, but head online to really explore the range in depth. From product videos to technical drawings and specifications you can really get to know your new bathroom products.

Not only that, but you can find your nearest showroom so you can see and feel the quality of our products in real life as well as getting expert advice to help you bring your ideas to life.

Browse the range and create your own Wish List to collate your ideas into one place - this is great to share with your local stockist and acts as a basis for understanding your style.

Let's get *Social*

Why not visit us on any of our social channels? We regularly post a steady stream of bathroom ideas and inspiration.

In fact, we love it when you share your renovations using our products.

Get tagging us with your own Bathrooms to Love transformations and you could win a £100 shopping voucher* to help towards those finishing touches from fluffy towels to potted plants!

Visualise in your space

See our products come to life with our AR technology. Here's how:

step 1 - Browse

Browse our brochure and where you see a QR code simply scan it with your smart phone or device.

step 2 - Visualise

Experience our products in your space in full 3D, you can even rotate and zoom in to really get to grips with how they look.

step 3 - Learn

View more product information and videos on our website to help make your final decisions.

step 4 - Curate

Start a Wish List on our website and even search for your nearest retailer to discuss ideas and get professional advice

This season...

...there is more to love with our brand new Spring Summer collection packed full of new bathroom furniture, basins, baths and brassware.

A muted colour palette is still a popular choice from earthy greens to rich inky blues. These hues pair beautifully with warm brushed brass and brushed bronze elements and even more so with natural wood tones too. The combinations are endless and allow you to get creative with the finishes in your own space. Browse our latest collection and be inspired...

MORE *to love*

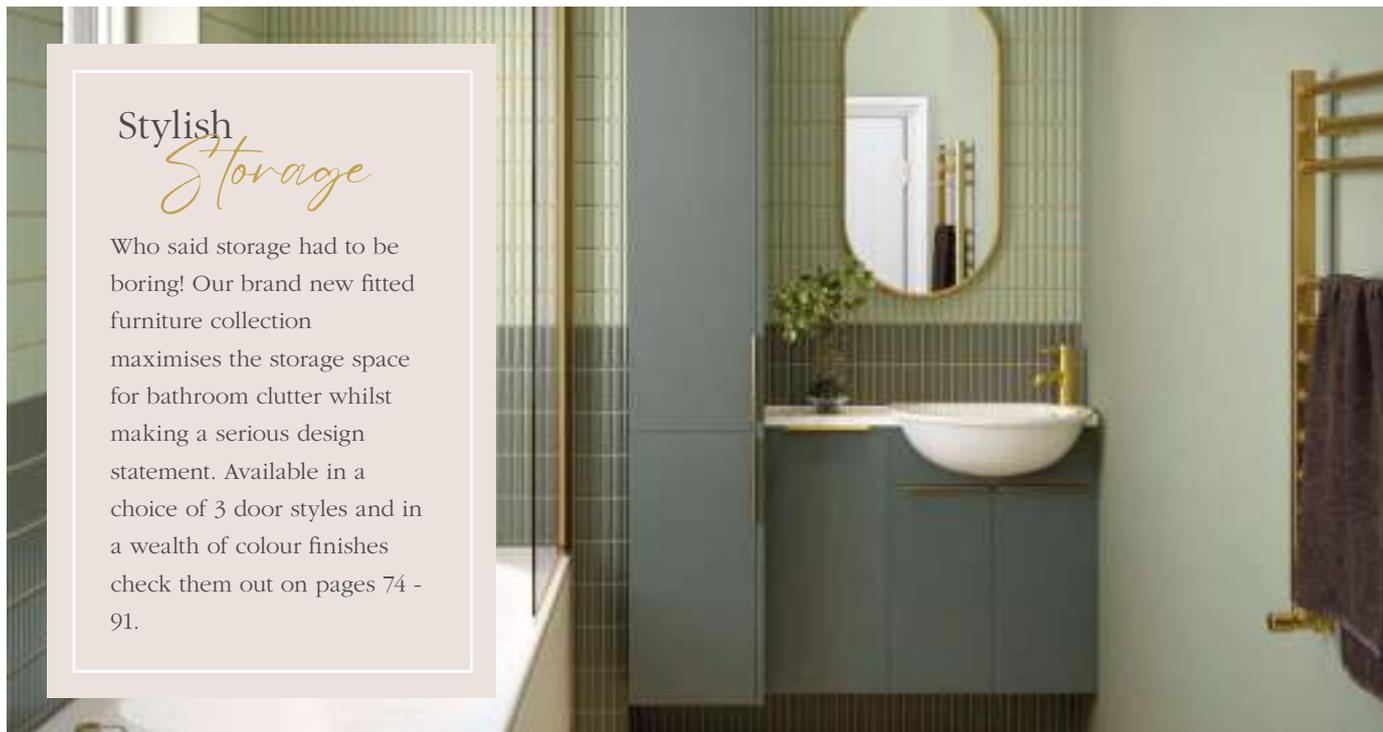

"There is so much choice available this season for creating a truly individual design to suit your style and space."

Scan to find out more about our front cover star Cara in Matt Green

Stylish *Storage*

Who said storage had to be boring! Our brand new fitted furniture collection maximises the storage space for bathroom clutter whilst making a serious design statement. Available in a choice of 3 door styles and in a wealth of colour finishes check them out on pages 74 - 91.

Modular furniture

Modular furniture has individual units that can be arranged anywhere in your bathroom space to create a bespoke look. This type of unit often provides a more modern look, and just like fitted furniture, it provides a good range of storage options to keep your bathroom tidy.

Modular *Style*

Discover our versatile modular furniture ranges, offering a variety of styles to transform your bathroom space. Choose between our floor standing and wall hung units, or opt for a unit with optional legs to customise the design your way! Whether you prefer a classic shaker style, a sleek handleless design or something more unique we have the perfect unit for you in a wide range of finishes!

Basin Choices

Our collection of stylish basins are designed to complement your space. Many of our furniture ranges have the option of a sit in basin which fits perfectly on the furniture, creating a seamless look. Alternatively, we also have furniture ranges which allow you to combine a worktop with your choice of washbowl for a customised design! With a variety of shapes and styles to choose from, you'll find the perfect washbowl to elevate your bathroom space in our collection.

Handle Designs

Your furniture handles can play a key role in setting the tone for your bathroom design, and with the different styles in our collection, you can add an extra personalised touch to your units. With finishes like Chrome, Brushed Brass, Matt Black and Bronze, you can easily co-ordinate your handles with other products in our collections too, from taps and showers, to radiators and accessories, you can create a truly seamless look!

Push

Contemporary, handleless, push to open doors and drawers and a stunning chamfered edge design make Push a smart choice.

Matt Storm Blue

Matt Cotton

Washbowls

There is a wide choice of washbowls to suit our modular furniture. Washbowls are either made from ceramic or a resin material.

The basic ingredient of our resin basins is crushed dolomite rock. Rock in combination with resin gives superior hardness and flexibility and allows us to create beautiful shapes, but above all, ensures impact resistance and durability of the product during its many years of use.

Our resin basins are manufactured from 100% renewable resources and are able to be recycled too!

On Trend Shape

ELEMI WASHBOWL
W564 x H173 x D323mm

Resin
• Requires an unslotted waste, see pages 280-281

Fitted furniture

Fitted bathroom furniture is all about maximising storage space, whilst offering flexibility in layout and design. It's also a great solution to hiding unsightly pipes whilst making your space totally functional. With a clutter free bathroom you are free to relax and enjoy some 'you' time.

Build your bathroom - Follow our simple steps to create your dream bathroom using fitted furniture

Step 1 Door style

Choose a door design to suit your style.

Cara
22mm Contemporary, handleless door
Pages 74-79

Edin
18mm Modern, slab style door
Pages 80-85

Abbey
18mm Traditional, shaker style door
Pages 86-91

Colour selection

Each range is available with a choice of colour/finish options, see the individual range page for details.

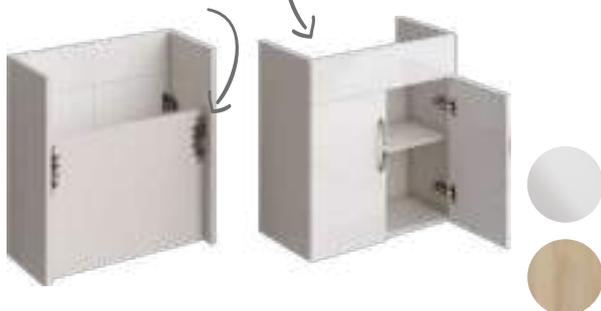

Step 2 Cabinet Style

Our cabinets are supplied rigid, and come with a wealth of great features ensuring a trouble free installation and years of hassle free use. You can also select between a light grey or oak effect finish.

Wall brackets are attached to the back of the units for easy fixing

Removable back panel to help the fitter with installation.

Choice of unit depth

We know not all bathrooms are made equal and sometimes space is tight. That's why we offer 2 cabinet depths: 200mm and 300mm* so that even the smallest of spaces can be functional.

Choice of installation

Our range has the flexibility to be fitted floor standing with the use of clip on plinths to cover the adjustable 171-207mm legs, or as wall hung, with wall mounting brackets also included. This means you can really customise your design.

Unit overview

There is a wide choice of unit sizes - offering great storage for all your bathroom essentials from toilet rolls and towels to toiletries and more.

Our slim depth units are great to use as wall units so you can maximise floor and wall space.

Finally, whether you are using a light grey cabinet or an oak cabinet you will need to use add on end panels to coordinate with your door fascia and create a seamless look.

Plant on end panels

Step 3 Basin & Toilet options

Choose from semi recessed basins, washbowls or a one piece basin and worktop in one!

See pages 93-96 for options.

Step 4 Select a Worktop

Our worktops are hard wearing and durable and come in a great choice of finishes.

See pages 97-98 to choose.

Step 5 Handle choice

Finally, unless you have chosen Cara, our handleless range, you'll need unit handles! Get creative and totally customise your design with our wide range in a choice of finishes see page 99.

Cara *New*

Turn your bathroom into a stunning centrepiece with Cara's beautiful contemporary style furniture.

Key Features

Our fitted furniture compatible washbowls are manufactured from resin. The basic ingredient of our resin basins is crushed dolomite rock. A sedimentary rock that was formed 170 million years ago by volcanic activity, it is completely natural and safe.

Rock in combination with resin gives superior hardness and flexibility at the same time. This allows us to create beautiful shapes, but above all ensures impact resistance and durability of the product during its many years of use.

Our resin basins are manufactured from 100% renewable resources and are able to be recycled too!

Style setting *suites*

The shape of your suite sets the style for the rest of your bathroom, so it's important to consider what look and feel you want overall when choosing. We have sizes to suit large bathrooms or small cloakrooms and a range of shapes that reflect the most popular current styles.

concealed cisterns and flush plates

Choosing the right

Suite

With so many choices it can be hard to know which suite options are right for you. Use our guide to help you understand the differences between products and when to use them.

Close Coupled Toilets

We have a wide selection of close coupled toilets – ‘close coupled’ is where the cistern rests directly on top of the pan. Designs vary but watch out for fully shrouded and open back options. Toilets that are fully shrouded mean that the waste pipe and water inlet are fully shrouded within the ceramic, making the toilet sit flush to the wall. These types of toilet offer a clutter free, more contemporary look. Open back toilets on the other hand, have access at the back for your pipework and are perfect if you are planning to box in pipes from the left or right. It's worth checking with your fitter which type will work best for your plumbing.

Comfort Height

Set at a height of 450mm or more, comfort height pans provide added comfort, especially for taller people or the elderly.

Soft Close as standard!

All our toilet seats come with soft close as standard. These clever seats close softly and quietly. Great for safety too so tiny hands aren't caught under a fast closing seat!

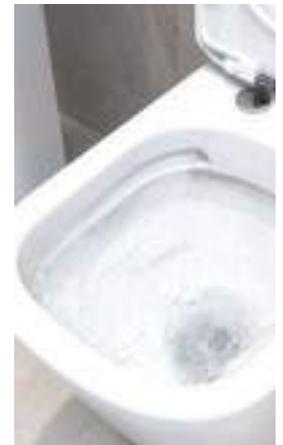

Use with *Furniture*

When choosing fitted bathroom furniture you might want to look for a semi recessed basin and a back to wall WC, which both work perfectly with our furniture units. Remember, you will also need a concealed cistern and may want to update the finish of the flush button too to match your overall scheme!

Make cleaning *easier*

Rimless WCs are easier to clean as they flush by propelling jets of water around the bowl without needing a rim. They are highly efficient and can easily be incorporated into any bathroom and mixed perfectly with other products in the range.

Classic design

For those wanting a more classic look, a good choice is our Sherbourne collection.

With its traditional style design, toilets can be close coupled, low level or high level.

Plus the pipework and fittings come in a choice of chrome or brushed brass so perfect to coordinate with other finishes in your bathroom.

To pedestal or not to pedestal

Basins can come with a choice of pedestal style; either a full pedestal, which goes to the floor or a semi pedestal which sits off the floor but still conceals your pipework. Alternatively, you could choose a wall hung basin which has no pedestal at all; in this case you would need to choose a bottle trap which come in a range of finishes to match your taps and other fixtures.

Typically wall hung basins are smaller and perfect to use in a cloakroom setting which is generally tight on space. Either way, sitting a basin off the floor creates an illusion of space and makes cleaning easier!

Tilia

Square design with a soft finish

On-trend design, with a smooth finish to this stylish square suite.

Its fine design, incorporating ultra thin edges, complements any bathroom design.

For non-exposed bath wastes see page 281.

Supercast[®] baths

What is Supercast[®]?

Strength and beauty combined

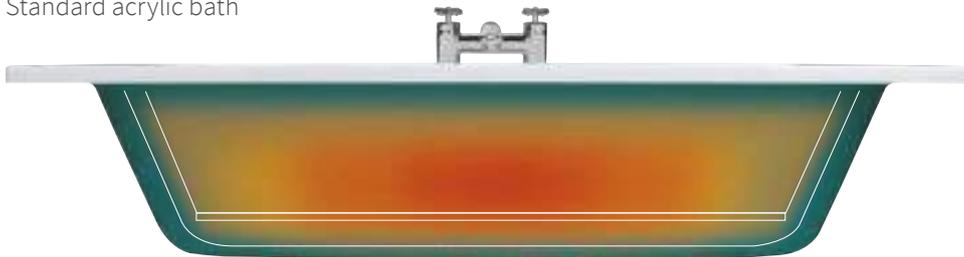

Supercast is a substantial reinforcement process for an acrylic bath.

This reinforcement process results in each bath being incredibly strong and hard-wearing. This gives you the reminiscent assurance of an old cast iron bath with the natural warmth and quality acrylic has.

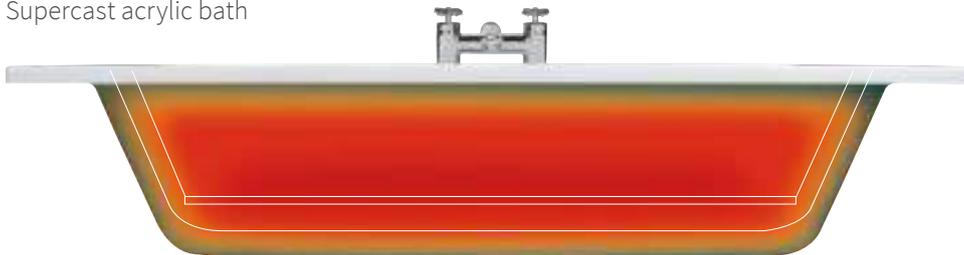

Acrylic's unique properties make it ideal for manufacturing baths. Acrylic allows itself to be moulded into many shapes giving many possibilities for varied designs, an attribute that enables baths to be manufactured with design and function working in harmony. The natural gloss is cast all the way through the acrylic, resulting in a product that is smooth and ever so easy to clean.

The intensive reinforcement processes and final (grey) 'flow coat' jacket to the entire underside of the bath adds strength and insulating properties. This keeps your bath water hotter for longer!

Standard acrylic bath

Supercast acrylic bath

SUPER STRONG

Supercast reinforcement process results in a strong, hard-wearing bath

INCREASES INSULATION

Keeps your bath water hotter for longer

WARM TO THE TOUCH

Natural high gloss finish is smooth and easy to clean

*Design tip: flip our L
shape showerbath to the
wall to allow for wall niches
offering stylish storage.*

6 combinations

How it works

As you can see from the diagrams on the left there are many combinations that can be made.

If you wanted to make up a walk-in wetroom for an area to fit on to a 1200 x 800mm tray or floor. You pick a 700mm and a 800mm panel, which also includes the recommended 500mm minimum opening for the walk-in. So in order to build up your own ideal wetroom area just choose the panel sizes from the table below.

FEATURES

- Height: 2015mm (including rail)
- 8mm toughened safety glass
- Easy clean glass coating
- Suitable for both wetroom floors and on shower trays
- Comes with 1 metre stabilising bar which can be cut to fit your space

SIZE		Adjustment (min/max mm)	
700mm	£564	675 - 690	DIEW7002
800mm	£564	775 - 790	DIEW8006
900mm	£564	875 - 890	DIEW9006
1000mm	£609	975 - 990	DIEW1008
1100mm	£657	1075 - 1090	DIEW1104
1200mm	£657	1175 - 1190	DIEW1208
1400mm	£766	1375 - 1390	DIEW1404
300mm Swivel Panel	£323	n/a	DIEW3004
*Vertical Pole	£276	n/a	DIEX0016

TRAYS

Linear Shower trays

Unique to the Linear range is smart water capture technology where liquid is drawn from the surface and delivered at the correct velocity to a capture chamber beneath the waste cover. This ensures that the vortex waste unit is fed at the optimum rate allowing it to function at up to an incredible 30 litres per minute, keeping excess water and soap deposits to an absolute minimum. The waste unit has no moving parts and is entirely self-cleaning, making this technology extremely reliable and reducing the possibility of blockages.

- Designed & made in the UK
- 25mm high, 100% natural stone resin
- Rectangular 75x297mm stainless steel flush fitting waste cover (full load bearing)
- Lifetime guarantee

Refresh with our *shower* collection

Choose a mixer shower that connects to the hot and cold water supplies and then mixes the water inside the shower to your selected temperature.

Mixer showers normally deliver a higher flow rate than electric showers and are often thermostatic to protect against scalding. Ideal for homes with readily available hot water. You can also add a pump if required to boost the flow from a gravity fed system.

Alternatively, electric showers connect to the cold water main supply. A heating element inside the unit heats up the water as it passes through. It doesn't rely on stored water and provides instant hot water on demand.

Mixer Showers - Create your own

Which shower valve to select...

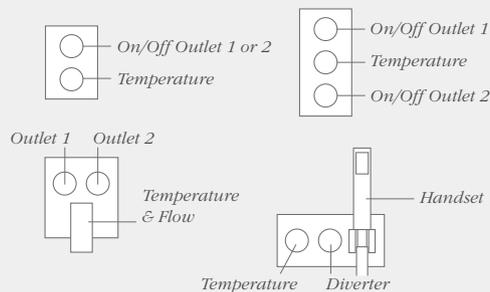

Single outlet

Operates a single outlet only such as a slide rail kit OR a fixed showerhead.

Two outlet

Operate two outlets such as a slide rail kit AND a fixed showerhead independently.

Three outlet

Operates two outlets but gives the option for up to 3 outlet fixtures such as a slide rail kit AND a fixed showerhead AND an overflow bath filler.

Mixer Showers

Thermostatic valves

Thermostatic mixing valves protect against scalding. The thermally sensitive mechanism within the valve mixes hot and cold water to a preset temperature. The mechanism automatically compensates for any variations in pressure or temperature to maintain a safe temperature.

EXE LEVER COOL TOUCH BAR MIXER SHOWER

- Cool touch feature ensures that the valve remains comfortable to touch
- Easy to use lever handles
- Suitable for all water systems including gravity fed
- Durable design including ceramic disc flow control
- One piece, one screw rail fixings with adjustable wall fixing centres
- 3 spray pattern, rub clean showerhead
- 1.25m anti-twist hose

● CH | DICM0074 | **£310**

DENE COOL TOUCH THERMOSTATIC BAR MIXER SHOWER

- Cool touch feature ensures that the valve remains comfortable to touch
- Suitable for all water systems including gravity fed

Electric Showers

These connect to the cold water mains supply.
A heating element inside the unit heats up the water as it passes through.
It doesn't rely on stored water and provides instant hot water on demand.

Amore

Sleek, modern and ultra-stylish, Amore is an elegant and easy-to-operate shower range you're sure to love using first thing.

- Choice of three finishes
- Crisp white digital display with temperature read-out
- Sleek, contemporary cover
- Touch activated power selector, on/off button and temperature control dial
- Stylish slender shower kit with 530mm rail
- 5 spray pattern rub clean shower head
- 1.5m anti-twist hose

Aspirante

Whether you're out to add a cool feature to your bathroom or find inspiration for a complete bathroom renovation, Aspirante puts cutting-edge design at the heart of your bathroom.

- Choice of three finishes
- Compact slim design
- Easy to use illuminated soft touch buttons
- Push button Start/ Stop
- Phased shutdown flushes out preheated water after use to help reduce limescale build up
- 3 spray pattern rub clean shower head
- 1.5m anti-twist hose

Power Showers

Triton's silent running thermostatic power shower is so quiet that when the water is running, you won't hear the pump, and as such has been awarded the Quiet Mark award of approval.

The AS2000SR is the perfect solution for those with low pressure systems, providing a great flow rate of up to 14 litres per minute.

AS2000SR SILENT RUNNING THERMOSTATIC POWER SHOWER

- Easy to use start, stop button and variable temperature and flow controls to select the perfect shower setting
- Adjustable maximum temperature stop
- Multiple cable and water entry points makes the AS2000SR an ideal replacement shower
- Suitable for low pressure gravity fed systems only
- 5 spray pattern rub clean shower head

● WG | DICM0502 | **£822**

VEMA

Taps by Vema

Situated in the Piedmont region of northwest Italy, VEMA products blend excellence and innovation with traditional craftsmanship, whilst also utilising modern technologies to produce designs which embody that recognisable “Italian style”.

In fact, Italian design, engineering, elegance and practicality are the characteristics that you can count on by trusting in VEMA. Our products offer beauty and reliability that will enhance any bathroom space with their distinctive quality and timeless appeal.

New

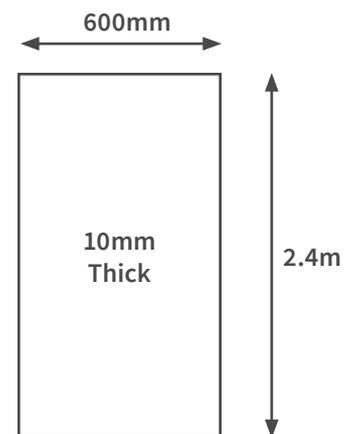

Fibo Wall panels

Designed & manufactured in Norway, Fibo wall panels give you 100 percent waterproof walls with exceptional durability.

Made with a 7 layer Birch core, panels simply click together with Fibo's unique Aqualock system which provides virtually invisible joints. With the membrane in the panel front, you never have to worry about hidden damage on the back wall.

Panels can be installed up to five times faster than tiles too, which makes them a great option for fitters.

The panels are available with a range of profiles and accessories to make installation and maintenance easy. With fantastic antibacterial as well as environmental credentials, plus a 25 year warranty, the only question is which style of panel will you choose?

- 10mm thick wall panels available in a wide range of tile effect styles to suit any bathroom
- Choose from Urban, Scandinavian, Contemporary or Marble collections
- Range of profile trims and accessories available see page 289
- Panels are easily cut to size and can be screwed or glued directly onto solid or stud walls meaning no need for backing boards
- Use the QR code above to visit Fibo's and find out more about the benefits of waterproof wall panels

Heating features

Radiators & Towel warmers

CH *Central Heating*

The benefit of this type of installation is that it is economical to run when the central heating is on. Suitable for use with indirect central heating systems (your plumber/installer will be able to advise the type of system you have). The radiator is fitted to your central heating system and works alongside your existing radiators.

E *Electric*

The benefit of this type of installation is that the radiator can be installed almost anywhere and does not require any pipework. It has the added versatility of being able to be turned on and off whenever required, regardless of whether or not the rest of your central heating is on. An electrical element kit (see page 298) with a fused spur is required and wired to your electricity supply. The electrical element is screwed directly into the radiator and heats the water.

DF *Dual Fuel*

The best of both worlds! This type of installation is plumbed with indirect central heating systems and or your electrical supply. This guarantees the low cost of a central heating system during the winter whilst ensuring the versatility of being switched on and off independently during the summer months. Central heating, electric or both - the choice is yours!

Underfloor heating

Becoming more and more popular, electric underfloor heating distributes heat evenly throughout your room, alleviating cold spots and allowing you to remove radiators which can take up valuable wall space. It's more energy efficient than conventional heating methods too and provides a luxurious feeling under foot.

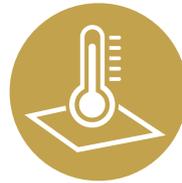

Suitable for most properties

Energy efficient

No cold spots

Luxurious feeling of warm floors

Flexible control through zoning areas of the home

Maximise space in the home, no radiators on the wall

TILE BACKER

Tile Backer Board is the perfect insulation panel for use with our 150 watt cable heating systems. The board will dramatically reduce heat loss and running costs by up to 25%. The boards are waterproof, provide great sound insulation and can be easily cut down to size.

1200 x 600 x 6mm Board (Pack of 5) DIUH0022 **£90**

STICKYMAT

Our heating mat cables feature dual-core resistive heating wires with FEP (Teflon) inner insulation and 4mm PVC outer insulation. These cables are spaced evenly at 65mm intervals to ensure uniform heat distribution across the floor, tailored to the required heat output.

Simply roll out a length, cut, flip and stick down the mesh until the floor area is covered. It is perfect for evenly heating large or regular-shaped rooms

- 150 watt undertile sticky heating mat 1m² DIUH0024 **£98**
- 150 watt undertile sticky heating mat 2m² DIUH0026 **£133**
- 150 watt undertile sticky heating mat 3m² DIUH0028 **£169**
- 150 watt undertile sticky heating mat 7m² DIUH0030 **£300**
- 150 watt undertile sticky heating mat 10m² DIUH0032 **£405**

LOOSE WIRE SYSTEM

The loose cable system uses the same high-quality dual-core resistive heating cables with FEP (Teflon) inner insulation and 4mm PVC outer insulation. Supplied on a drum, this flexible system allows you to arrange the cable in any configuration to suit your space, making it perfect for tight, confined, or irregularly shaped areas.

- Loose cable 150 watt - 20m DIUH0034 **£133**
- Loose cable 150 watt - 30m DIUH0036 **£149**
- Loose cable 150 watt - 40m DIUH0038 **£159**

DIGITAL THERMOSTAT

- White DIUH0040 **£108**

The Digital Programmable Thermostat is a simplistic, yet stylish underfloor heating thermostat designed for use with electric underfloor heating. The digital programmer can be used to control the air (ambient temperature) or floor temperature and as a standard it can be set to either 7 day or 5/2-day programs allowing each day to be different or weekday/ weekend settings accordingly.

TOUCH SCREEN THERMOSTAT

- White DIUH0044 **£169**

The Touch Screen Thermostat has an ultra-sleek, minimal design with chrome surround, and a full glass display with touch sensitive control. It will keep your home at a comfortable temperature whilst minimising energy use.

It's supplied with a 3m floor sensor probe and will also sense if a window has been opened as it detects when the room temperature plummets, so will automatically shut off for 15 minutes.

WIFI THERMOSTAT

- White DIUH0042 **£139**

The Smart Wifi Thermostat is an intuitive, programmable thermostat used to control your electric underfloor heating system. Simply download the 'Smart Life' app via your iOS or Android platform which will then allow you to remotely manage your heating, plus you can also use Google and Alexa to control the system too. This thermostat has a professional design and many features such as 'Holiday Mode' and 'Hold Temperature' functions.

Mirror features

Battery Operated - If you want to avoid wiring but still require LED lighting. Quick and easy to install.

IP44 Rated - All of our products comply with electrical safety regulations and have been given an IP rating of 44, which protects against sprays and splashes of water. See technical specifications for bathroom zones.

Demister Pad - Many of our mirrors contain a demister pad which gently heats the mirror once it is switched on. This then makes the mirror steam free.

Rotatable - Some of our mirrors can be positioned landscape or portrait.

Touch Sensor - Easily allows you to switch your lights on and off with touch.

Infrared Sensor - Easily allows you to switch your lights on and off with the swipe of a hand. No touch needed*.

Charging Socket - Suitable for electric shavers and toothbrushes.

Dimmable - Lighting that can be adjusted at the touch of a button.

Colour Changing - Adjust the light from cool to warm.

Lighting

Our stunning collection of bathroom lights are all IP44 rated and so suitable for use in zone two.

Zone 1

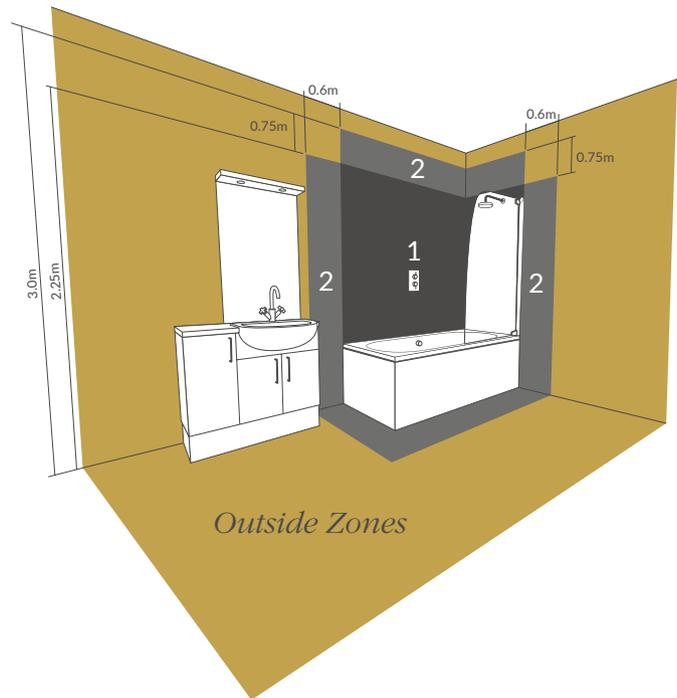

Electrical fittings in this zone require a separate extra low voltage and a minimum rating of IP65 (splash-proof).

Zone 2

Electrical fittings in this zone require a minimum rating of IP44 (splash-proof).

Outside Zones

Electrical fittings in this zone require no IP rating (unless cleaned by water jets).

Shower water systems

There are a few different types of water systems in homes in the UK. We can usually make some assumptions about the sort of water pressure each will give.

GRAVITY FED SYSTEM

This is usually a tank in the loft space or inside an airing cupboard. A basic guide to establish how much pressure it will deliver is how high the tank is above the tap or shower. If the tank is 2 metres above the level of the tap or shower, the water pressure will be 0.2 bar. If it is 5 metres, the water pressure will be 0.5 bar. Generally this type of system is low pressure however you can increase the pressure by installing a pump. It is recommended to seek advice from a qualified engineer or manufacturer before choosing your pump as these vary in performance.

Mirrors & lighting

Zone 1

Electrical fittings in this zone require a separate extra low voltage and a minimum rating of IP65 (splash-proof).

Zone 2

Electrical fittings in this zone require a minimum rating of IP44 (splash-proof).

Outside Zones

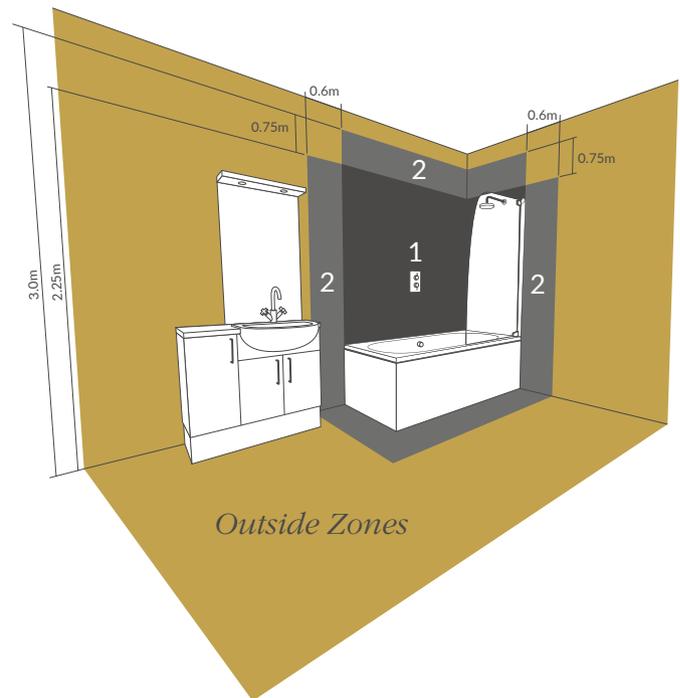

Electrical fittings in this zone require no IP rating (unless cleaned by water jets).

COMBINATION BOILERS

These are high pressure systems and are usually set to operate between 0.8 to 1.5 bar. Minimum and maximum pressure can be checked with the manufacturer however most boilers have a gauge to show what pressure it is operating at. Combination boilers have an integrated pump so if the water pressure is too low for your required application, adding another pump can damage the boiler.

SEALED/UNVENTED SYSTEMS

These are modern systems. If you have a hot water tank, but you don't have a cold water tank (cistern) in your loft or garage, this is an unvented high pressure system. They are quite uncommon as they are more expensive however they can usually deliver around 3.0 bar of water pressure.

Terms and conditions

Your new bathroom products have been designed and manufactured to high standards and all come with a reassuring manufacturer's guarantee. Guarantees apply to manufacturing defects and do not apply to accidental damage, wear and tear or any item or component rendered defective by unsatisfactory planning, faulty installation, improper or negligent use or damage resulting from failure to maintain the product in accordance with the customer care instructions. Guarantees do not cover any product that has been modified or altered in any way.

Guarantees do not cover any product that is installed with a fault that would have been clearly evident before installation. In the interest of continuing design development and product improvement, we reserve the right to amend or adjust specifications at any time. Where an identical product is no longer available we will supply the nearest equivalent from our current range. Guarantees are for the original purchaser of the product, they may not be transferred to a subsequent purchaser of the premises in which the product is initially installed.

Due to our policy of continuous improvement, we reserve the right to amend specifications, designs and colours without prior notice.

Suggested selling prices are including VAT. Due to circumstances beyond our control, prices may have to be altered including changes to the rate of value added tax.

The colours and finishes shown in this brochure are as accurate as possible within the limits of the printing process. Please note we always recommend viewing an actual swatch of our furniture ranges before purchase.

Whilst every effort has been made to ensure accuracy of the information supplied herein, we cannot be held responsible for any errors or omissions.
