

ZaQit is a **Decentralized Charity Hub** for donors and suppliers which supports the right people in need of the funds.

The platform's main purpose is to make the distribution of donations much faster, easier, and at the same time reliable without the need for intermediate or third parties to be involved.

The business model is based on supporting different parts of specified events such as natural disasters, wars, and economic crises to help them **administrate and deliver in the real world.**

The platform will be upon donations and support of the **Community** and **charges from the Supporter's side**, not Supported.

Payments will be supported from **Banking** Accounts to **Crypto** Wallets and Exchanges Hassle-Free.

ZaQiT

Events and auctions will help to raise the voice of the **Destitute** side to awaken the **Supporter** side to decide which ones make the donation decision. Meanwhile, we'll promote official organizations' pages and profiles for **monthly, seasonal,** and **Annual** subscriptions.

Charity Auctions will have at least **3 stages** to be **completed** and get fully funded. The first stage will include **15%**, the Second one will be **35%** and the final stage will contain **50%** of the Total considered amount.

Advert Starter needs to give **reportage** to its community and supporters at each level to be eligible to run the next stage and create a new request.

Ai will be one of the main pillars of ZaQit in the most pure way. For that part, we'll use **Open-Source** LLM for Data collecting for the **occurrences**, adverts, **events**, and the **institutions** behind it and how the allocated donation was spent and used, and also for the **Fact-Checking** purposes.

We'll use **human resources** for the **institutions** to **approve** their **originality** and **validity** and the **adverts** they post on the platform. Our main **Vision** and **Mission** are based on a **Humanistic** approach and **Philanthropic** views and we'll try our best to be **political-agnostic** and a free and open platform for donations and charity in the upcoming tough years to come
FOR HUMANITY.
