

# Dreaming, within Dreams

(By: Unknown)

Dreaming, within dreams

Dreams I have..... sometimes they are darker than I imagine.....but I don't question them any longer....

When I woke this morning, I had dreamt there you were spinning me over on my stomach and restraining my free ankle attaching pieces of rope to the rest of my cuffs. After my ankle was secured, you bound my wrists securely to the remaining little eye hooks you had previously screwed in to the sides of the box spring mattress? pulling the ropes tighter until I was totally unable to move.. As you got on top of me, straddling me, I could feel your hard cock nudging to enter my ass. Then your voice soft and low, whispers in my ear,

"Did you sleep well my slut? How did it feel having your corset cinched so tightly as you dreamt?"

"Wonderful Master!" I reply, "and thank you Master."

You then ask, "Do you know what today is my sweet little submissive slave?"

"Yes Master, it's Saturday and you have the entire weekend to play with your slut!"

"No, thats not what today is".

"Then what is today Master?"

"My slut today is the day that I've decided to take your ass? and make it mine. Truly mine."

I look in amazement at you, and you reply that this is the day your Master will cleanse and pamper His pet.

"My sweet, I will shave around your ass and shave your pussy until it is free of hair and baby soft. I will be wanting to suck, lick, bite, and eat your pussy tonight, and I want you extraordinarily clean - inside your body and outside your body, and your Master is going to clean you like you have in no way been bathed before! Do you have any questions?"

"No Master." I quickly reply.

"Good, for you must be clean and pure - completely clean to receive me and besides, I have additional plans for my precious slave tonight and this is just a sign of what I have in store for you darling."

I lie there bound to the bed wondering exactly how I shall come to pleasure my Master today getting hot and wet at the mere idea of how I shall be of service to you. I watch Master, as you rise and enter the bathroom. I hear you turn on the water. You walk back into the bedroom and then you place a full leather helmet on me. Although the mouth gag is not attached yet. I hear you move around the room not knowing that you are moving the coat rack close to the side of the bed. I hear a drawer open and I hear you remove a lid from a jar. I feel your fingers slide deep, deep into my ass, fingering me deep first with 2, then 3 fingers. You say that should open me up just right for what you have in mind. I can feel your free hand is pressing down on the small of my back as you finger my ass.

"Oh myyyy!!!, oh yes, oh yes" I mutter, as I whimper and thrash about even though restrained. I whimper and beg, pleading with you not to stop. "More, please Master, more!"

You whisper in my ear what a good little obedient slave I'm becoming. - To learn the lessons of pleasing and pleasuring you. You continue to fuck my ass with your fingers and tell me enough of all that noise, and with your hand just at the verge of entering full hilt you stop, drawing your fingers out. You rise from the bed only to return and insert a penis gag in my mouth. You cinch it around my head attaching it to the helmet, telling me that the gag should keep me quiet!

"My slut, I know being the decadent slut that you are just how much you are going to enjoy what I have in store for you." I feel something inserted in my ass, too small for a butt plug but an invasion of my ass all the same. You laugh to yourself as you straddle me. You stroke my back, spank my ass, and start to lightly flog me. You kiss my neck, and suck and nibble on my ears, pull my breasts out to the sides of my corset and pinch and suck and bite on my nipples, grabbing first one then the other with your teeth and then my breasts feel the rope as you bind each one. Around the base of each breast the rope is wound, I feel the tug of the rope as each breast is pulled out and like my ankles and wrists; my breasts are pulled tight, and tied down to the bed. I hear the drawer open again, feel you squeeze my nipples and I whimper as you attach a cupping pump to each nipple. The intensity of the suction on my breasts is excruciating, I feel the heat in each breast as it sends wave after wave of heat, need, and lust to my cunt. I'm embarrassed knowing that my cunt is oozing, juices running down my legs. You whisper in my ear that you've quite a surprise in store for me. I hear you walk out of the room and then back in again, and listen as you slide the coat rack even closer to the bed. Then once again you straddle me. Bending down you take out the gag and kiss my mouth - a deep kiss, and after you kiss me deep, the gag is immediately replaced.

You tell me you are honoring me by giving me a soap enema to start my cleansing. You whisper in my ear that there is an enema attached to the coat rack and that it has about a gallon of soapy water in it and that it is nice and warm. You tell me to relax that this cleansing is to prepare me for what is in store later tonight. I moan and groan and start to pull and buck against my restraints but you just laugh and spank me with your free hand I feel the heat of the hot soapy water as it courses into my body, feel it spread its warmth deep into my belly, and all the while you continue to kiss my neck around my collar....flogging my body repeatedly.

Asking. "Do you like this my sweet slut?"

I've grown delirious with pleasure and between the sensation of the liquid entering my ass, being struck by the flogger, and the suction on each breast I feel myself slip into that state of bliss, the sub zone and drift higher and higher. I feel your finger on my clit - stroking it, entering my cunt with your fingers, warning me not to cum.

You say, "You are my fuck puppy, your slut, and my slave." Again you slap my ass, spanking me until it is red then I feel your body reach across mine and then feel a huge vibrating dildo enter my cunt. You fuck me with it, deeper and deeper. Into my cunt it goes, all the way in and as you turn it on you hear my moans, and see wave after wave of pleasure rolling across my body, see my juices running down my legs. As you fuck me with the dildo, you whisper in my ear that you are fully releasing the clamp on the hose to the enema I moan, I groan, I feel it flowing into my body, feel the warmth, feel my belly swell. You let it flow slowly as you continue to fuck my cunt with the dildo. The contents of the enema emptied in to me. You see my stomach distending and wonder if you should fill me with more. You tell me this has you so hot and excited. The bag is empty but the tube remains in my ass ....

Knowing I'm truly yours, in every way - my Masters most prized possession.

Immediately on removing the tubing I feel you insert a large butt plug up my ass, which you proceed to inflate. You tell me of how proud you are at how well I've received this, That I am learning well my lessons of servitude, and that tonight will indeed be a true test of not only my loyalty to you but also will test my limits of submission.

You look down and see my nipples swollen from being sucked into the pump You are pleased at the progress being made you decide that with my nipples so erect you disconnect the cups and will tie floss around each nipple. You release my wrists, and start to fuck me again with the dildo. I keep moaning the pressure growing deep inside me. Feeling like I'm about to explode. You know I have to let it go but you tell me NO.

You tell me that if I let it go you will severely discipline me. I keep whimpering, needing to let go, needing to cum and needing to expel the enema. You whisper in my

ear, cum my slut, cum for your Master and as you stroke me with the dildo with one hand and knead my tummy with the other I have the most intense orgasm I've ever had.

You release my ankles from the restraints and you whisper that you are going to remove the gag and the blindfold. Finally, you release my remaining bonds, and carefully loosen my corset removing it as well... You remove my collar. Whispering what a wonderful slut and slave you have... You help me rise and stand from the bed. I tell you I'm about to explode, and again you remind me of the consequences.

My knees are so weak I can barely stand and I need to lean on you for support to walk to the bathroom. Slowly you turn me around and look deep in my eyes, telling me how happy I made you. You suck on my breasts, slowly remove the vibrator and tell me to straddle the toilet. Slowly you remove the plug. You laugh and tell me there is cum oozing out of my cunt. I hang my head in shame but you tilt my chin up and look me in the eyes and tell me how proud you are of your slave and kiss my eyes, nose and mouth.

I tell You how I badly I need to let it go and you whisper in my ear for me to go now and release what I've got hidden deep inside of me. I let it all go, and as I do I feel the most intense orgasm. Cum is running out my cunt, and the soapy water is running out my ass, and as I sit there... You bend down to me.. holding me and kissing me. Again you cuff my wrists together and lead me into the shower. You raise my arms high, locking them to the ring above. You enter the shower with me, close the door and with the warm water cascading over us, you lather me up. You probe and clean all of the holes and crevices in my body touching and inserting your fingers everywhere. First you shave my armpits, and then you kneel and lather up my pussy, taking the razor and shaving my cunt for the first time, long smooth strokes with the razor. Teasing me with it. I shiver uncontrollably at the sensations and feel myself growing hot at the feel of the razor and the brush of your hand. Three times you shave my pussy and tell me that it is so important that I be smooth and free of my pussy hair. Then you turn me around and shave around my ass just to make sure there is nothing but baby smooth skin. You can't resist as I feel you slip two of your fingers in my ass. Then you start to finger my cunt with the other.

Oh god you make me wild Master! I start thrusting my pelvis down on both your hands as they splay me apart. I feel your fingers deep in my pussy now and feel the sting of soap, making me clean everywhere. Then I feel your other hand reaching further inside of my ass, I'm screaming as wave after wave of pleasure washes over me. You release my wrists from the ring above but keep them tied together. Knowing I'm finally clean, you tell me to kneel before you. With the water running over us both I kneel and bow my head. You tilt my head back, open my mouth and insert your hot cock.

Holding the back of my head You start to deep fuck my throat while my tongue works both sides of your shaft. I suck on your cock as you pull it out and open wide as you thrust it back in. Deeper with each thrust, it swells with desire. Faster and faster, harder and harder, deeper and deeper. I see your balls start to tighten and feel your body start to contract. I stroke your balls with my tongue, softly stroking them as they slap my chin as you pummel my throat with your hot hard cock. I feel liquid still oozing out of my ass as you unleash a load of cum deep in my throat. I feel your hot liquid shooting down my throat .You grab my breasts squeezing them tight bucking away and fucking my throat so every bit of cum is shot down my throat.

Mmmmmm I am smiling and thanking you.... You pull out of my throat and tell me to rise. We are both spent. As we dry each other off you tell me of your pride in my submission to you! That I will be trained well, and know all forms of pleasing you, Nothing will be omitted from my training, nothing!

"Yes Master, you have honored me with your gift." I reply. "For if I am to serve you totally and completely - then I will be yours in all ways."

"Very good my sweet slave, you will do well at serving me! Yes - that is so. There will be no taboos, you will do whatever is requested, and more so, you will WANT too!"

"Of course Master, my goal will be to always please you in each AND every way, for I am yours and my body is your body. My body is your vessel, your chalice. It is to you that I surrender all. I am Yours."

You kiss my lips and and dress me in the corset again. Tighter than the previous night... smiling as you place my collar back around my neck...

"To tight?" you ask... I smile...

"No Master, it's perfect!" You then lay me back on the bed, again securing my wrists and ankles with the leather cuffs. My sweet, your body has been prepared and is now ready for the big surprise I have in store for you tonight, I want you to rest and dream of what is yet to come...
