

# The Janitor and the Shower

(By: Ken Martin)

Joe had been a janitor at Wickmann College For Girls for about three years, and while the pay wasn't the greatest, but being a young single guy he didn't have many needs. Besides, the scenery at the school was nothing short of spectacular! The little bitches who attended the exclusive private school never even gave him a second glance. As far as they were concerned he didn't even exist! That was O.K. with him, because it gave him the perfect cover for his one and only hobby, trying to see these little sluts with their panties down!

Their were really only three places that Joe knew the girls took off their clothes, in their own dorm rooms, in the bathroom, and in the main shower area and locker room. After careful evaluation, Joe soon figured out that the shower was by far the best place to make his attempt.

The first reason was that in the shower all the girls would be totally nude. The bathrooms had stalls and the girls wouldn't be totally disrobed, and it would be almost impossible to see much in the dorm rooms, and it would be much too risky for the limited rewards. The shower had several other things going for it, the first being that the large janitor's closet was directly adjacent to the shower and could be used as the nerve center for his spying activities, and also since he was the janitor, he could go into the shower room and make any modifications he needed to carry out his plan.

Joe decided that the best way to see the girls was to use a hidden camera shooting directly into the shower room. The problem was how to disguise it! It would be easy to drill a hole up by the shower room ceiling through to the janitor's closet, the trick would be hiding the hole and the lens of the camera. Along the ceiling in the shower was a hot air duct that was on the same wall as the closet. By drilling a hole from the closet through the duct work Joe was then able to fit a remote control camera behind the metal grid on the air duct.

When the system was operational it was nearly invisible to the naked eye! Joe now had a perfect view of the whole shower room! He set up a portable VCR and monitor in the back of his van. With a range of 300 feet, Joe could park a good distance from the gymnasium and still get good reception! Before he would get out of his truck in the morning, he would flip on the recorder with an eight hour tape. Now any action that took place would be taped for later viewing at his leisure.

The first time Joe rewound the tape to see what was on it he was almost shaking like a leaf! Soon the figures of totally naked females were casually walking into the shower! All shapes and sizes, every girl in the school was eventually caught by Joe's secret camera. Being as the girls were mostly eighteen to twenty years old {a few

were older}, Joe was surprised at the huge differences in tit shape as well as the different thicknesses of pubic hair.

The blond girls tended to have less hair and this allowed you to see some very pouty pussy lips! There was one girl named Chris that must have shaved her cunt because her pussy was completely bare! Her lips were very full and her clit seemed to protrude out of her puffy lips. She had a small but very firm chest with nipples that seemed to be constantly hard! She quickly became one of Joe's favorites!

A dark haired Italian girl named Jenny, on the other hand, had big boobs and a really hairy snatch box. She was obviously proud of her chest as she never covered it with a towel when she entered or left the shower area.

As it turned out one of the best things to see the girls do was when they shaved their legs or they trimmed their bushes! Since most of the girls swam, they all pretty much had to shave some fur so it wouldn't show in a bathing suit. Watching a seventeen year old crouched down with her legs spread wide apart and using a razor to trim back her hair was the most unbelievable sight! Another time Joe caught two lesbians giving each other a bath. They both soaped and scrubbed each other and finally ended up sucking each other's tits!

One of the best things to see, however, was when one of these little sluts would wash her pussy! The little blond with the shaved bush and big clit would always first use a wash rag and then a her finger right inside her lips. Once when she was alone she frigged her clit to an orgasm! You could clearly see her clit protruding from her crack, and it was the biggest clit Joe had ever seen in his life!

Probably the most exciting thing that happened, was a very unexpected visitor to the girl's shower. One time after everyone had left for the day, Joe was startled to see Miss Jameson, the volleyball coach, stroll in and use the public showers. She was in her mid-thirties and had an incredible body! On many occasions Joe had fantasized about how she looked in the raw, and now here she was standing under a stream of hot water rubbing and scrubbing her beautiful body unaware of the prying eyes watching her.

This was too much even for Joe, so he pulled his dick out right in the van and blew a load watching the pretty teacher cleaning her cunt!

Most of these girls were from rich households and seemed not to have a care in the world! If only they could know that they were being recorded during their most intimate moments.....
