August 15, 2019

REIN AUTOMOTIVE THERMOSTAT HOSE WITH METAL CONNECTOR FOR BMW

Data available through Activant/Epicor, WHI, or ShowMeTheParts.com

Rein Automotive, brought to you by CRP Automotive, now offers thermostat hoses with a pre-mounted metal connector for popular BMW applications. The original connector on these hoses is made of plastic that can become brittle and leak resulting in a limited service life of the hose. Rein's upgraded metal connector is a more resilient alternative that will increase the service life of the thermostat hose. Having the metal connector pre-mounted to the hose will save the professional repair technician time when completing the installation.

Rein Automotive also offers only the individual metal connector if only the fitting needs to be replaced during this service
