

A PASSION FOR THE WATER: THE STORY OF OUR COMPANY

This industry is more than just a company to me – it's my family's legacy, and it's a reflection of the passion and dedication that we've poured into this industry for over 20 years. I believe that every project we undertake has the potential to make a lasting impact – not just on the waterfront itself, but on the people who use it, the communities that surround it, and the lake as a whole.

When I first started out in this business, I never could have imagined the impact that our work would have – not just on the people who use and enjoy the projects we build, but the community around us. As the years went by, I realized that the structures we were building would outlast us – that they would stand as a testament to our hard work, our commitment to quality, and our love for the lake.

The name Legacy Waterfront Construction carries so much weight and meaning for me. It's a reminder that our work is about more than just building these boat houses or Retaining walls – it's about creating something that will stand the test of time, and that will continue to tell our story long after we're gone. As a family-run business, that legacy is even more important to me – because it's not just about building for today, but for the future of this company and for the betterment of the waterfront communities.

A PASSION FOR THE WATER: THE STORY OF OUR COMPANY CONT.

As an added perk, One of the things I love most about this industry is the people that we get to meet and work with. Every client we work with has a unique story and a unique vision for what they want to create on the waterfront, and that diversity of experience and perspective is something that I find truly inspiring.

To my oldest son- You have been a major influence on our growth and expansion over these past few years. Your passion for the industry, and your drive to push us to greater heights, have been a constant source of motivation for me and the rest of our team. I'm proud to say that your vision and expertise have helped us to expand our services, take on bigger and more complex projects, and deliver even better results for our clients. And overall, has helped me become a better dad.

To our previous and existing clients- It is an honor and a privilege to be able to do this work every day, and I wouldn't trade it for anything.

ISAIAH 40:31

But those who hope in the Lord will renew their strength. They will soar on wings like eagles; they will run and not grow weary, they will walk and not be faint.
