\$Blessed Token

Purpose

Our team is here as ambassadors of the Golden Timeline, here to open a Gateway through which all our holders may be \$Blessed. The \$Blessed Token will bring welcome relief as a contrast to the tokens to come before it and will change the crypto-verse forever. Within the \$Blessed Token community our goal is to bring long term value through our giveaway programs and charity as well as future projects and endeavors to be announced. Through these measures, we plan to create opportunity for our holders, and bring blessings to the \$Blessed community. Overall, the founding team recognized a need for blessings in the current world today, and today we finally present to you the \$Blessed Token that aims to do just that.

How It Works

We will achieve this through an airdrop phase where we release an initial 33% supply of the token. We will then enter a tiered rewards system to reward our long-term holders and supporters. Our value will be created through limited initial supply and slow release over an extended period of time. With the release of \$Blessed NFT's we will continue to attract blessings for our holders. Additionally, planning to have a fun time along the journey with trivia, contests, and more! Our destiny is to be a top 50 crypto project and our team is dedicated to manifesting that reality into existence.

Development

We plan to use 7% of supply to be reserved for overall development needs for the project. These tokens are retained the development fund for future projects instilling value for our holders. Over the next 24 months we intend to complete our NFT project and release an app to connect with the \$Blessed community.

Community Giveaway

We plan to use 4% of \$Blessed tokens reserved for our holders, which they will receive through promotional contests and events. We are a community-oriented token and part of our purpose is to give back as much as possible to the holders of the \$Blessed token. Giveaways will be in the \$Blessed token as well as in XRP!

Marketing

We plan to use 3% of our supply reserved to promote the \$Blessed token on all platforms and project needs. We plan to work with all of the modern social media expansion techniques (social media promotion, creating high quality and authentic content, traffic driving, engaging new followers) needed to create and maintaining an unwavering following for the token, and therefore positive price action, to the \$Blessed token.

Legal

We plan to use 2% of the \$Blessed Token supply to support us with legal help. Our team is committed to achieving 100% compliance with all laws and regulations, and foreseeing a need for compliance considerations as time/growth needs arise.

Exchange Listing

Getting the \$Blessed token listed on exchanges will be one of our primary goals. For that reason, we have allocated 6% of the token supply to be used to get listed on exchanges, fostering value for our holders' overtime. We believe getting \$Blessed listed on exchanges will be essential to achieve the goals and growth needed for our team to aspire to full potential. Our ultimate goal is to make \$Blessed a top 50 crypto and this goal cannot be achieved without listing on as many exchanges as possible.

Token Release

The token release will be a reward for our early supporters and the primary way we get the \$Blessed token into circulation. We will be releasing 33% of supply with the initial airdrop **to all available trustlines.**

Escrow

As a community driven project, we want to reward our individual holders for holding the \$Blessed token. We will lock 42% of \$Blessed Token into an escrow that slowly releases over a period of time. As the \$Blessed token is released from escrow we will reward these to holders through events and special giveaways as well as use for future follower driven projects decided on by holders. A portion of \$Blessed Tokens released will be traded to XRP and given directly back to our holders. **By holding the \$Blessed Token you will be automatically entered to win XRP giveaways.** Winners will be selected by trustline at random no matter how many tokens are held, we want all holders to have the potential to be #Blessed! The amount of XRP reward will be based on the amount of \$Blessed Token held.

Founders

We plan to use 3% of supply to be reserved for our founders. These tokens are retained by our founders for all their hard work to make this \$Blessed Token possible. The founding group has no plans to deprecate a coin they put a lot of hard work into developing.
