Amber Dubey, a graduating senior who has left an indelible mark on Sigma Omega Upsilon (SOU). Amber's leadership, vision, and dedication have been nothing short of inspiring.

As the CEO of SOU, Amber spearheaded initiatives that strengthened our fraternity's community, fostered meaningful connections, and propelled us toward new heights. Their passion for mentorship and commitment to excellence have positively impacted countless members, leaving a legacy that will resonate for years to come. Beyond SOU, Amber's journey at Virginia Tech has been extraordinary. From making invaluable contributions to organizations in Pamplin to excelling in academics and entrepreneurial ventures, Amber has truly embodied what it means to be a Hokie leader. Amber, as you prepare to graduate, know that you leave behind not just an organization but a family that will always cherish and celebrate your achievements. We're so proud of you and excited to see all the amazing things you will accomplish in the future. Congratulations on this well-deserved milestone! Thank you for everything you've done for SOU.
