RETICULATE

Solutions and products for
LPG, NG & Industrial Gases

RETICULATE

About Us

Reticulate (once a division of Bgls) has its roots attached with Bombay Gas Light Stores, a 75 year old concern currently the leading supplier of HoReCa kitchenware in south India.

Under the banner of BGLS reticulate started laying down gas pipelines right from 1990's and has finished over 10000+ successful installations in residential, commercial and industrial fields across the state of Andhra Pradesh, Telangana & Odisha. Today working under its own brand name Reticulate has expanded to the states of Karnataka and Maharashtra as well successfully undermining turnkey projects of LPG Pipeline solutions & applications in a total of 5 states.

Quality Policy

Based in Vizag the Industrial hub of Andhra Pradesh we employ a team of 90 people. We believe excellence is a basic requirement and demand that from every employee of our organisation enabling us to deliver the same to all our customers. We strive to provide our customers with products and services which exceed their expectations. Committed to continuous improvement and we have established a Quality Management System a framework helping us measure and improve our performance everyday.

BOMBAY GASLIGHT STORES

An iconic shop that dominates the Uplands Road, the Bombay Gaslight Store has a relationship with every kitchen in the city.

From the size of a small paan shop, the store grew to become a known name in the city to the point where almost every kitchen in Vizag has at least one item purchased from this store. Later on diversifying to be one of the Largest Supplier to the HoReCa industry in kitchen equipment supplies across South India.

Today Bombay Gas Light Stores a brand in itself running on the spirit of integrity, good business practices and value for customer satisfaction.

Our
Vision

Sky is the limit and our vision to make the ends meet is very clear. Short term goal: to strive and revolutionise the reticulation of LPG pipelines in India. Paving the way for our long term goal: to setup a base and capture the potential developing markets of Africa.

Hardware & Technology

Offering The Best In Safety, Economy & Efficiency

**STANDARD AND BUDGET MINI ASSEMBLED
SKID TECHNOLOGY (MAST) LOT installation**
(5+5 or 10+10 cylinders) Plug and Play.

LPG VAPORISER

Operated on 230V, 3 Phase,
Operates between 70-85 Deg C.
For LPG, Propane & Ammonia
with a capacity of 50 to 1000 kgs/hr

**PRESSURE REDUCING STATION
Double Stream Single Stage (DSSS)**

**INDUSTRIAL GAS METER
FMG Rotary Piston Displacement
Type Meter for Dry Gas**

The FMG series of rotary gas meters is designed to meet the highest demands of reliable and accurate measurement of gas flow.

**ELEHANT
SMART BOY METER G 1.8**

Can be used for domestic or Industrial use. Bluetooth connectivity with app download for taking readings on your smartphone.
No Antenna, wiring or SIM card required

Maximum Pressure 5 bar

450 kg Cylinder Fittings

SS Body

VEL
ACTUATOR VALVE FOR LIQUID OUTLET

MS / CP Body

VEL
2 MTR LONG LIQUID HANDLING HOSE
3/4" BSPM END CONNECTION

Brass Body

PUNEGAS
0.885" POL CONNECTION X 1/2" OUTLET
BRASS ADAPTOR FOR VAPOR OUTLET

Brass Body

VALSTOP
NON RETURN VALVE 3/4" BSPF

LOT Manifold 5 / 10 / 15 / 20 Cylinders with provision for SRV, PG etc
ANSI # 300, maximum working pressure 27 bar

LOT Class 300 Main Valve

Available in sizes 1", 1 1/2" and 2"
Made in one piece CS forged WCB body
Flame proof design

Adaptor for LOT

Available in sizes 3/8" inlet, female 1 1/4" acme nut, LOT valve outlet, suitable for 33, 47.5 kg LPG LOT cylinders.
Made in forged brass body

Pop Action Safety Relief Valve

Available in sizes 1/4", 3/8", 1/2", 3/4" mounting.
Pressure relief rating available in various capacities to customers requirements.
Made in forged brass body.

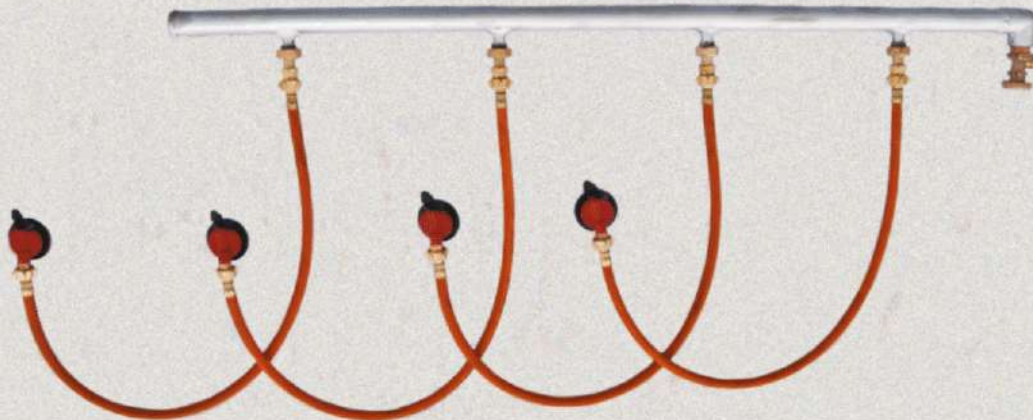

Non-return Valve for LOT

Available in sizes 1/2", 3/4", 1".
Made in forged brass body with SS spring, nylon NRV.

VOT Manifold Systems as per IS 6044 Standards

Suitable for any number of SC type cylinders to be used at a time. Center distance between the consecutive lugs is 350 mm (14") or 425 mm (17"), 2 x 2, 3 x 3, 4 x 4, 5 x 5, 6 x 6, 7 x 7, 8 x 8 etc. Also manufactured as per customers requirement. As depicted below to withstand a maximum working pressure of 17 bar:

Two Branch Connectors

12" Straight / 18" Bent

Manufactured for connecting two manifolds or two pipelines as per customer's specifications or readily available in 12" straight or 18" bent.

Multi Lock Bearing Adapter

These die-cast multi-point adaptors enable the connections of the cylinders fitted with self-closing valves to a high pressure system through a standard M.E.C.V thread with unreduced pressure and a high flow rate. The adaptors are fitted with a non return valve to ensure that there is no return flow of LPG whilst cylinders are being disconnected. The salient feature of these adaptors is the multi-point locking mechanism which combined with a face seal ensures that the adaptor will not leak even if it is loaded off axis. The quick disconnecting arrangement coupled with a safety interlock ensures that the device can only be disconnected after turning off the gas flow. Both adaptors featured here are available in 22 mm and 25.6 mm inlet seats and 3/8" or MECV outlet size.

Flexible Cylinder Pigtails

Available in size length of 2ft, 3ft and 5ft. or as per customer's requirement. Used in cylinder connection to get more flexible between steady manifold and cylinder. This pigtails is specially used in Railway Pantry Car, Mobile Canteen Van etc. Also available with one side 3/8" BSPPF and other side FECV. These pigtails are available in SS Braiding, Suraksha, SAE 100R1, Gazflex Hose. All these pigtails are available with brass end fittings with brass crimping or MS fitting with MS hydraulic crimping.
