

POSTER 4 Culture Intelligent Workflow Structure and Steps

As we stand on the cusp of a new era where nature and nurture converge like never before, the imperative to cultivate a culture attuned to AI in Population Health Management becomes increasingly evident. This approach not only stems from the foundational importance of child health but also promises to expand its influence internationally. In anticipation, I will present the poster “Culture Intelligent Workflow Structure and Steps,” which will lead us to the discoveries over five papers. 1. Culture Intelligent Workflow Structure and Steps. 2. Population Health Management Ontology System Transformation. 3. Population Health Management Ontology System Improvement. PHM - Genomic Newborn Screens. 4. PHM-Fit Lifecycles for Future Analytics. 5. PHM, UK-US Memorandum of Understanding for Higher Expert Medical Science Safety.

- Poster will be displayed online when it becomes available -
