CENTRE FOR
**POPULATION
HEALTH**

DEVELOPING LEADERS • IMPROVING LIVES • CREATING EQUITY

July 2024

Welcome

Welcome to our first newsletter. We hit a big milestone in July, our first full year as an organisation supporting people with their approaches for population health and equity.

What we've been up to

We have been busy this year setting up the organisation and growing our team which now includes an amazing and diverse pool of 20 associates. We undertook the evaluation of a Population Health Academy; supported board and organisational development; worked with an ICS to explore options for improving the lives of local populations; ran a series of population health masterclasses; published several blogs; led a national survey on board leadership for equity and inclusion with HIKSS Seacole Group, APNA and others; and were commissioned to lead research on gender equity in the digital and AI workforce.

Developing leaders, improving lives and creating equity.

01/03

News and Views

Going forwards we'll be including your news and views so please do send us things through or email it to:

durka@centreforpopulationhealth.co.uk

We'll do our best to showcase as many of your stories as possible.

Things to look out for in the next quarter.

We have some exciting projects coming up...

- **Our first conference on 27th November 2024 in Bradford** – to get an early bird ticket see this link: <https://centreforpopulationhealth.co.uk/2024-conference>. You can submit your abstracts for posters and oral presentations on the topic 'Population Health – Making It Happen' showcasing your work including research that you've been leading or implementation work driving improvements in practice.
- Workshops on Leadership for Population Health and Equity – for HR and OD Professionals run with HPMa running from June to November 2024.
- Online learning session on 'NHS Board Leadership role for ensuring Equity' NHS Providers NED Network session on 24th July afternoon.
- Publication of our NHS Boards Leadership for Equity and Inclusion Survey in collaboration with Health Innovation KSS, Middlesex University, Seacole Group, APNA and others (delayed due to election timings but plan is to publish this quarter).
- Speaking at PPP conference and WHO conference in October (details tbc).
- Launch of our Network of Population Health Academies (PHAN).

Scan me to book early bird tickets for our conference.
#CPHConf2024

We focus on three things:

•Developing Leaders • Improving Lives • Creating Equity

To do this we drive forwards five things in particular:

- Values-Centred Leadership
- Population Health Leadership
- Leadership for Equity and Inclusion
- Community and Workforce Leadership
- Transformational Leadership

Opportunities to get involved with

Please get in touch with any ideas, suggestions or offers you have.

We'd love to hear also from anyone who would like to contribute to our conference as a partner or sponsor – email us at durka@centreforpopulationhealth.co.uk and whatever role you want to play we'll do our best to make it happen.

If you're involved with a Population Health Academy and want to be part our Networks of Population Health Academies just email our team and we will be glad to connect you into this earlier – you'd be most welcome.

Thank You

We hope that you will join us on this journey as a valued partner and friend.

Thank you and see you again soon
