

Here are some fun Christmas crafts to decorate your home this season.

First, some bows for all your presents. Cut out the bows and decorate the presents under your tree. They will make your tree look beautiful and festive. Print as many copies of the page as you need.

Next are some holiday poinsettias. They are festive and bright. Color the flowers, then cut them out and decorate your home with them. Print as many copies as you need to make your home warm and inviting.

And finally, some Christmas lights. These can be any color you like. If you want them all blue or red, or multi-colored, the choice is yours. Cut out as many as you need to decorate your home. They will certainly add the Christmas spirit, and add charm and atmosphere.
