"In the beginning was the Word,  
and the Word was with God,  
and the Word was God."

- John 1:1

ALL IS VIBRATION  
ALL IS FREQUENCY

## WHAT IS RIFE FREQUENCY?

Rife frequencies are specific electromagnetic sound frequencies developed by Royal Rife in the 1930s that target harmful pathogens at the resonant frequency at which they weaken or disintegrate, while supporting the body's natural healing processes.

## HOW IT WORKS

Every cell, microbe, and organism has a natural resonant frequency.

When exposed to the right frequency, harmful pathogens are disrupted.

Healthy cells absorb beneficial frequencies, restoring balance and promoting healing.
