

Peppina (\$PEPI) - The Meme Queen of Solana Official White Paper & Roadmap

1. Introduction

Peppina (\$PEPI) isn't just a meme coin - she's a movement. Born from internet culture and forged on the blazing-fast Solana blockchain, \$PEPI is a high-energy blend of humour, community, and tech. She's loud. She's proud. She's the Queen of Memes - and now the star of her own children's book series, with the first title launching in Q1 2025 and the second following in Q2.

2. Vision

To lead the charge as Solana's #1 female-fronted meme coin, creating a fun, transparent, and culturally impactful ecosystem powered by tech, art, and the people. We're not just here for the giggles - we're here to build a lasting culture where memes have meaning.

3. Migration & New Contract

To keep things secure and future-proof, we've deployed a new Contract Address on Solana Mainnet. What hasn't changed: - Website: peppina.online - Same core team & community - Socials & vibe intact - Roadmap still on track We're levelling up while staying true to our roots.

4. Tokenomics 2.0

Total Supply: 1,000,000,000 \$PEPI (1B) Status: Successfully migrated 1:1 from the original contract. Key Points: - Major holders can conduct OTC deals with strategic buyers - All OTCs will be handled transparently, with zero impact on the charts - Flexible token structure designed for long-term scalability Why This Setup Works: We're fuelling growth, onboarding partners, and building without hurting holders.
