APRIL - SEPTEMBER 2020

A Day in the Life of an Energy Worker

Most people know that there is something else other than the physical daily life. We have a spiritual side that is so powerful. When you start to work with energy, you learn that you can change your life and the environment around you, and even affect people in a positive and healing way. One day last week, I was talking to "Sarah" who was missing her jewelry from her house. I saw the thoughts on the jewelry of "fear" and "it's stolen" on the metal. She told me that someone has taken her jewelry from her—maybe a friend, the landlord, or a cleaning lady. I cleared these thoughts and also cleared the energy of the people who had given the rings to her—one ring was from her mother and the other from her grandmother. Objects can hold energy and thoughts. Once I had cleared the energy, I returned the objects to a neutral vibration. I did this by putting a "gold neutral" energy on them. Then I wrote the Sarah's name energetically on the rings, and I could start to see where the objects were. I told her my impressions—which were that the rings were in a box in a corner on the wooden floor. She had already scoured her house looking for the lost heirlooms. However, she immediately went to her closet which had no carpeting and there she found the rings in a box in the corner on the wooden floor. She was elated to find them.

Later the same day, I attended a wedding. The helpful friends of the bride came several hours early to help her set up for the wedding day. The friends, the caterer, the florist, and the bartender asked the bride many questions. The bride became nervous and anxious. I saw the energy of the helpful people as well as the soon-to-arrive wedding attendees starting to invade her auric field and her head to the point she couldn't think anymore. The bride asked me to come up to her room and give her a healing. I removed all the people from her field—including all the people who were thinking about her who were coming to the wedding.

It was easy for me to see the difference between the bride's energy and someone else's energies. Her energy in her aura was bright or pastel colors. The energy of other people made her aura dark in some spots.

When you learn to read an aura, you see that your colors are bright. However, when energy comes in your space that is not your vibration, it will not be bright or pastel. It is very much like the quote in the Bible, "If

thy eye be single, thy whole body shall be full of light. If thy eye is clouded, thy body is filled with darkness."

After clearing out all the foreign energies, the bride immediately calmed down and returned to a vibration of happiness, and finished getting ready and she had a great event. In a way, you could say, she was clean on the outside and on the inside. She even remarked, "Now I don't feel like I'm about to get a headache anymore." Now, how would the day progressed had I not had psychic tools or clairvoyant training? "Sarah" would have been self-convinced that someone stole her jewelry and gone on for years with distrust of people and life. The bride would have gone through the wedding stressed and angry and maybe even taken pills to cure her impending headache. What a gift it is to be able to change the world and help yourself as well as others.

This is what happens every day at Intuitive Insights. Join this spiritual community with support, guidance and validation. It'll be well worth it, and change your life forever in a super, positive way.

FREQUENTLY ASKED QUESTIONS ABOUT THE CLAIRVOYANT PROGRAM

Where do I start? Is there a prerequisite? The 4-week Practical Intuition I Class is recommended but not required.

Andree Martin will be teaching the program in-person at 4455 Morena Blvd SD starting Tuesdays, **April 7-Sept. 2020 at 7:30pm-9:30pm** at 4455 Morena Blvd SD. New Program starts on Tuesday, April 7, 2020.

How much does the training cost? The program is \$270 per month or \$1620 - which can be paid monthly over the 6 months. If you pay \$1350 in the first month, the last month is free as a discount.

How long and how many hours a week are required and what exactly will I be doing? It's a 6-month program with a weekly schedule: One lecture (Tuesday evenings) plus Clinic Participation. You are encouraged to attend the reading practice as often as you are able. If you take a vacation, you can listen to the CD recording of the lecture from the library and bring it back next week. We can mail it to you if you are gone longer than a week.

What will I learn? You'll learn "to read." The focus of the curriculum is teaching how to read and work with spirit. You will be able to use the tools you learn in this program out in the "unreal" world.

When do I begin reading? Your participation in the reading practice begins immediately, usually as a "scribe" (the person who sits alongside another reader) and observes. Within the first few weeks you will be reading.

Are my friends going to think I'm crazy? Probably; until they have an issue and then they'll call and ask you to look at something for them—after which you won't be so crazy.

What if I can't see anything? Fine, this isn't uncommon & doesn't last very long. No one has ever flunked this program.

What if I am afraid that I will see and know too much by taking this program? You will learn to manage your psychic abilities-- rather than having your abilities run you around. Greater awareness brings a more satisfying, fulfilling life.

What graduates of the Clairvoyant Program are saying:

"In my life I was looking for a deeper spiritual awareness of mankind. This powerful program helped me answer these questions and manifest more in my life." - D. Greenberg

"By taking this program, I realize that I can become a professional psychic or just give a reading to my sister at Thanksgiving." - S.B. Anderhart

"This program changed my life, more certainty, awareness and to finally begin to understand how life & the universe truly works and create the life I want." -M. Upshaw

The above program is also offered over-the-telephone! Come join us on Tuesday, March 31- Free Clair I Phone Open House Lecture at 7:00pm. Dial in: (425) 436-6343
