

TRIPAK[®]
Super Lubricants

HEATXT[™]

XTREME DE-ICING LUBRICANT

What HEATXT[™] Does

HEATXT[™] is an environmentally friendly product specially formulated to de-ice and lubricate frozen parts and machinery with one application.

-  Removes Road Grime, Ice, and Frost
-  De-ices Frozen Locks and Latches
-  Use on Ratcheting Load Binders

Use On: Cam Locks, Flange Bolts, Ratcheting Boomers, Frozen Parts and Machinery, Car Door Locks/Tailgates/Latches, Air Tools, and Air Lines.

Directions: Shake well before use. Apply liberally. Always spray with can upright. Further lubrication may be required. Use with other TRIPAK products. Do not use on hot surfaces.

“I have used HEAT XT while I managed a couple of trucking fleets in Grande Prairie and Dawson Creek for several years. I love it, and consider it mandatory equipment on all my trucks in the winter.”

- Chris Skanderup
