

TECHNICAL DATA SHEET

TUFF NUT BREAKER

TRIPAK[®]
Super Lubricants

Product Description

Tuff Nut Breaker is a heavy-duty penetrant that breaks down rust and corrosion to help you break loose seized parts and mechanisms. ***Bust the rust, not your knuckles!***

Benefits

Heavy Duty Rust Buster. Tuff Nut Breaker contains strong penetrating qualities that break through the rust and loosen seized mechanisms.

Breaks Down Corrosion. Tuff Nut Breaker dissolves corrosion and conditions the metal surfaces, combating future corrosion build-up.

Fine Lubricant for Delicate Mechanisms. Tuff Nut Breaker is formulated with AFMT, which combined with its powerful penetrating qualities, allow it to reach tight spaces and leave behind a super lubrication barrier.

Saves Working Time. Tuff Nut Breaker's unique ability to break down rust and corrosion faster enables you to spend less time battling seized parts and more time getting the job done.

Directions

Spray generously on desired area prior to working on. Can also be reapplied every maintenance period to prevent corrosion. Tuff Nut Breaker retains its effectiveness from -30°C (-22°F) to 200°C (392°F).

Specifications

Specific Gravity: Range 0.957 - 0.977 @ 75°F/23.9°C

% H₂O: Not to exceed 0.05% (500 PPM) (ASTM-D1744)

Colour: Brown

Odour: Sweet

Solubility in Water: Insoluble

Composition:

Petroleum Based Carriers (over 50% by weight)
Actives (under 50% by weight)
(Specifications may vary ± 3%)

Ash: 0.002% ± 0.1% @ 1427°F /775°C

Applications

- Nuts and Bolts
- Gears
- Valves
- Bearings
- Open Bearings
- Tools
- Linkage Systems
- Cables and Chains
- Hinges
- Sliding Doors
- Locks
- Throttle Linkage
- Guns
- Reels
- Pulleys
- Air Tools
