

Letter from Daniel Sellers, PA-C

10/19/2022

All of my patients,

It is with a heavy heart I deliver the following news.

After eight extraordinary years, I am leaving my position as physician assistant at Negroski Neurology on November 11th. I have accepted a role with a pharmaceutical company as a medical science educator of multiple sclerosis treatments.

I am grateful to have worked and trained with such a well-respected physician, in a practice with compassionate and skilled nurses and staff who have supported me through the years. You will be happy to hear that Dr. Negroski will be expanding his availability to continue to provide expert care for all his patients and will be hiring another skilled provider in the upcoming months.

It has been a privilege caring for and getting to know each of you. I have enjoyed supporting your health and wellness. You will truly be missed.

Sincerely,

Daniel Sellers, PA-C
