Love's Journey: A Valentine's Day Collection

When designing for Valentine's Day 2025, we thought about all the love that can fill a lifetime.

From that first puppy love we experienced as a child, in which we showcased with soft pastel colors to symbolize innocence. To that secret crush you hoped would notice you in school, or to falling in love for the first time and thinking nothing in life could compare. Our First Love and Romantic Love Bouquets are made with traditional reds and pinks, colors best associated with Valentine's Day and love.

To that feeling when you find your person, your soulmate, the person you want to spend the rest of your life with. For this, we designed our Everlasting Love Bouquet, featuring calming lavenders and purples, demonstrating everything's all right, as long as you have love by your side.

Whatever stage of love your customers are in, we have a beautifully crafted bouquet!
