Hoshall's

6608 Folsom-Auburn Road, Suite #4, Folsom
916-987-1995

Hoshall's Salon and Spa is exactly that - two distinct businesses in one. The salon is full of creativity and energy, while the spa exudes peacefulness and serenity. There are several self-indulging spa experiences for both men and women to choose from, including body treatments, massage therapies, facials and peels. There is also a Turkish Steam and Shower, Desert Dry Sauna and Vichy Rain Shower. Their offerings are too extensive to list here, but suffice it to say, they have it all...wonderful services, great amenities and an inviting atmosphere.

The salon side of Hoshall's is an entirely different world! The stylists provide haircuts, perms, tints, weaves, and special occasion styles and updo's. Hoshall's utilizes a time-honored European apprentice system where the stylists move through seven ranks - from Designer up to International Master, depending upon their years of experience, schooling and request rates. Services pricing varies depending upon the stylist's level, making Hoshall's affordable for everyone.

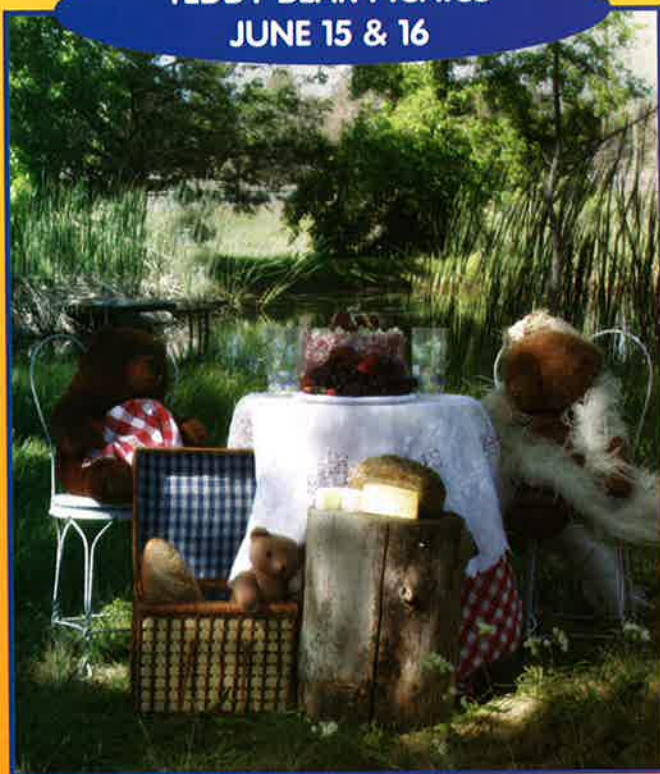

The man behind this very successful business is Bill Hoshall - pictured above with his lovely wife, Joyce. Bill has been a coiffeur since 1965 and opened the original Folsom location 14 years ago. The current location, adjacent to a lush, woodland setting, has been in the Folsom Pavilions since December 2000. Hoshall's is the only salon in Northern California that is a member of Intercoiffure - the very prestigious, invitation-only, international association of the world's finest hair designers. Hoshall's goal is to make your entire spa or salon experience an event to remember. Combining service with beautiful surroundings, quality staff and a dozen little touches, Hoshall's will give you an experience you will truly appreciate.
