K. Walker Photography, Inc.

10901 Green Valley Road, Folsom
916-989-3190

K. Walker is a photographer with a style of her own. She likes to shoot natural, relaxed poses. "When children or families come for a portrait, it is very important that they have a great time during their session. Who feels like smiling if they are not enjoying themselves?" A pre-shoot consultation creates that comfort level. All children's photography sessions are scheduled in the morning, when stress levels are at their lowest, and last for at least an hour so that the kids don't feel rushed and frustrated. Kathleen not only photographs babies and children (although they are her favorite, because they are always so "themselves") but she also photographs families, weddings, high school seniors and commercial work.

Kathleen has been a photographer for nearly 20 years, and for 12 of those years, has had a studio in the Orangevale and Folsom areas. Her current studio in Folsom has eight acres of scenic beauty. It features a pond, a vintage truck and a Victorian porch. Kathleen says she feels very blessed to be doing something that she truly loves. She gets to watch children grow up, get married and then record their families growing as time goes by.

Kathleen's studio offers several unique packages including the "Calendar Kidz Program" which features a different photographic theme for each month of the year, like "Bunnies & Lambs" and "Gone Fishing." And, Kathleen stands behind all her work. In fact, all sessions are 100% guaranteed and customers have 30 days to request a re-shoot if they are not completely satisfied. "I take a great deal of pride in the quality of my portraits and it's important to me that my clients are pleased and proud to display their K. Walker portraits in their homes." For more information, check out her website at: www.kwalkerphoto.com.
