Snowline Hospice Thrift Store

311 E. Bidwell Street, Folsom
916-984-5853

What could be a more worthwhile cause than to help terminally ill people and their families? Well, for those of you who did not know - that's exactly what Snowline Hospice does. Their philosophy focuses on patient comfort and is dedicated to helping patients and families live each day to its fullest. Snowline's four thrift stores, in Folsom, Cameron Park, Camino and Placerville, contribute a whopping 30% towards the Hospice's annual operating budget. Because of these stores, the hospice is able to treat patients, regardless of their ability to pay, and provide free grief counseling to the community at large.

The Folsom location, on East Bidwell across the street from the DMV, has everything from clothing, books and toys to furniture, bedding and cookware. The items are merchandised well and are clustered by type. For example, there is a book section with a quiet reading corner, a sports nook and organized linens cubbies. Donations are accepted, at the same location, during their open hours in the back of the store. You never know what deal or treasure you will find, so stop by often and think of them when you are ready to part with some of your belongings, like your children's clothing that they've outgrown, or that not-being-used side table that is just taking up space in your garage.

Store Manager, Anna Alvarez, cannot praise and thank their 54 volunteers enough. Without them, the thrift store simply could not function. Anna works hard to keep the customer's shopping experience fun. "They never know what to expect when they come in." And, the first two days of every month feature 50% off everything! You just cannot beat that!
